Issue #1

# VIPER

BIS BISS CH. MAX-WELL'S VIPER

## Generation after Generation

Viper's pedigree consists of 7 generations of Max-Well breeding with 7 Best in Show winning norfolks. Including his Dam Max-Well's Venus, winner of 22 Best in Shows and 3 National Specialties; his sire Max-Well's Cyclone, winner of 33 Best in Shows and 2 Group Placements at Westminster and his grandsire Max-Well's Weatherman "Storm" winner of 23 Best in Shows and 2 Group Placements at Westminster. Following in suit, Viper is a Multiple National Specialty Winner, Multiple Best in Show Winner and a Westminster Group Placement in 2008 and best of Breed in 2009.

# From the Editor's Desk

breed would be in a pickle! And yet, here we are with a club that could be a model for how to begin a new club. We have a Constitution and By-Laws that actually work, we have a web site that is powerful and informative, we have met our requirements for education and we continue to stretch ourselves to teach, to learn and to protect our beloved Norfolk Terriers.

## My, How Things Change!

When I got my first Norfolk Terrier from Annie Clark I was certain that I did NOT want to groom it myself, I did NOT want to belong to the breed club, and I did NOT want to show it myself. That was in 1984.

I was entering the conformation game again after a depressing number of years with Dobermanns, and just wanted to finish a champion, thank you very much. My first Norfolk was sent to me sight unseen and was one of only seven Norfolks in California at the time. I remember Mrs. Clark telling me he would certainly finish, and not to worry about the small cowlick on his neck. Imagine my surprise when he arrived having a cowlick down his entire neck from skull to shoulders! And yet, he did finish, and we were smitten by the Norfolk Terrier.

Since that time I have finished several champions myself, I groom sixty-plus terriers, including my four, and I've been past president and now current treasurer of my regional Norfolk Club here in California. And I've become an editor! Who knew what life would bring?

As I've edited and designed this annual, I am stunned by the amount of work put into this rare and wonderful breed through our new Norfolk Terrier Club. Without this monstrous amount of work, for the most part cheerfully done, our

I've often said to prospective

puppy owners, 'If you don't make it fun, a Norfolk will just ignore you.' Well, the same can be said for the owners, and Barbara Miller has a knack for making sure people have the opportunity to have fun. If we all had someone to believe in us as she does, the world would be a much better place. Thanks, all of you, for your contributions to this Annual, to our club and to our tenacious terriers. I am left wondering about my sanity when I was certain I 'did not want to get involved'. The friends I have developed and the knowledge I've acquired are absolutely priceless.

**Julie**

P.S. We've filled this issue with history as well as taken you on a journey of our efforts this year to build a new club. Please look for a place you might want to help. And please encourage other Norfolk owners to join us. They just might love it as much as I do!

*The first Annual of our new club would not be complete without a nod to the top-winning Norfolk in breed history*

*In less than two years of campaigning, Coco accomplished the following:*

Winner of multiple National Specialties

She was undefeated in the breed throughout her entire career

Number One Dog All Breeds in 2003 (a first for the breed)

Number One Terrier in 2003 & 2004, even though she took off for motherhood in 2004

Winner of 69 All Breed Best In Shows

Winner of 150 Group Firsts

Winner of Best In Show at the AKC/Eukanuba National Championship (a first for the breed)

Best In Show at Montgomery County Kennel Club where she also swept the weekend by

winning Best In Show at all three shows preceding Montgomery (a first)

Two-time Group Winner at Westminster

And upon returning home to England she was the first ever Norfolk, and the first dog to come from America, to win Best In Show at Crufts Dog Show topping an entry of 22,000.

**Coco was bred by Elisabeth Matell and is owned by Pam Beale,  
Stephanie Ingram, Elisabeth Matell and Beth Sweigart.**

**Beth Sweigart expertly handled Coco to all of her American wins  
and Peter Green handled her at Crufts.**

**DICKIE**

**DICKIE FOLLOWS HIS MOTHER INTO THE HISTORY BOOKS BY BECOMING THE FIRST EVER AMERICAN-BORN NORFOLK TO ACHIEVE AN ENGLISH TITLE**

**#`1 NORFOLK ALL SYSTEMS 2006, 2007 & 2008**

**TOP SIRE 2008**

# Historical overview

## Norfolk Terriers: Still Under the Radar

By Andrew Kramer (Mercator Norfolk)

A number of years ago my identical twin brother was at a corporate meeting and somehow the talk came around to dogs. Not thinking that anyone present would have known about Norfolk Terriers, my brother nonetheless offered up that his brother bred them. The head of the meeting quickly remarked, “Ah yes, Norfolk. The crème de la crème of terriers”.

My brother was taken aback, as he had previously experienced only blank faces whenever he mentioned which breed his brother was breeding. And why wouldn’t he? After all, there are as many Labrador Retrievers registered in one day as there are Norfolk Terriers in one year. In fact, Norfolk Terriers have consistently been ranked below #100 in breed popularity here in the U.S. Annually they have been on AKC’s Low Entry Breeds List.<sup>1</sup> But Sealyham Terriers as well as Wire Fox Terriers were once popular in the U.S. and are now ranked near the bottom on the popularity scale. So the question arises; were Norfolk Terriers ever popular or have they always been under the fancy’s radar?

For the sake of context, it is worthwhile first looking at registrations in the UK (England, Scotland, Wales, and Northern Ireland). Norwich Terriers split into Norfolk Terriers and Norwich Terriers, respectively in 1964 in the UK. Thus there’s been a considerable period of time for each breed to become established in their own right. But that’s not been the case. Data show that Norfolk Terriers have managed to get a modest foothold over in the UK, outpacing Norwich Terriers registrations by a ratio of more than 5:1; in 2007 there were 686 Norfolk Terriers registrations and 128 Norwich Terriers registrations in the UK. It is Norwich Terriers that are on the UK’s Vulnerable Native Breeds list (less than 300 registrations / year).

The picture is different here in the US. Figure 1. shows the annual registration statistics since Norwich Terriers split into Norfolk Terriers and Norwich Terriers in 1979. Both breeds started out with small registration numbers that have risen slowly over the years. Norwich Terriers registrations have consistently outpaced those of Norfolk Terriers by a 2:1 margin. Both breeds have increased proportionate to the increase in overall registrations of dogs (data not shown here). In a sense the growth for Norfolk Terriers and Norwich Terriers has “kept pace with inflation”, the inflation factor here being the increase in the overall registrations of dogs.

The AKC Low Entry Breeds List contains about 55 breeds whose number of entries in conformation is very low relative to all other breeds. For provisional judges in these breeds, it is possible that completing four assignments in that breed instead of 1 the usual five assignments is sufficient to apply for regular status.

**Figure 1. Norfolk Terrier & Norwich Terrier registrations, respectively in the U.S. since breed separation: (1979 – 2008)**

Table 1. (on the following page) gives the annual AKC rankings for Norfolk Terrier individual registrations and litter registrations. The results are underwhelming. Norfolk have consistently been ranked around #105 to #115 in registrations and #90 to #105 in litters. There was no spike up in numbers when “Coco” (Eng./Am. Ch. Cracknor Cause Célèbre) was in the international spotlight. The same can’t be said for Norwich which witnessed upticks in registrations corresponding to Westminster successes in 1994 by “Willum” (Ch. Chidley William The Conqueror) and in 1998 by “Rocky” (Ch. Fairewood Frolic).

So what does all of the above tell us? First, Norwich Terriers have consistently been more popular in the U.S. than in the U.K. The reverse is true for Norfolk Terriers. Second, Norfolk Terriers were a little-known breed in 1979 and remain so today. Third, the increase in registrations for Norfolk Terriers is in accord with the growth overall of AKC registrations. Fourth, that the breed’s popularity didn’t receive a boost when it’s top dog garnered international publicity.

Unlike the Sealyham Terrier or the Wire Fox Terrier, Norfolk Terriers are not a breed that once sparkled in the fancy’s heart and slid downward over the years. For whatever reasons, Norfolk Terriers have always been and probably will continue to be a breed that stays under the radar

*Table 1. Norfolk Terriers' overall U.S. rankings in registrations and litters, respectively: Annual statistics since breed separation*

Year	Ranking in Registrations	Ranking in Litters

# Our Foundations....

*From Norwich Terrier, 1980*

*"Few of the present NTC members can quite appreciate what were our beginnings in the show ring-class after class with one or two entries and judges who glanced at them with a 'what-breed-is-that' look."*

Sylvia Warren, 1966

**Sylvia Warren with  
Hunston High Flier**

## RIVER BEND AND MAPLEHURST

### THE FOUNDATION YEARS

Compiled and written by Margaretta Wood

They say sisters are different flowers that grow in the same garden, and so it was with the sisters Warren. Sylvia Warren was humorous and outspoken, Katherine Warren Thayer, orderly and diplomatic. Separate yet equal, these two ladies of strong New England stock are part of the tapestry that weaves its way to the present.

Sylvia Warren's River Bend Farm was located, by no small coincidence, in Norfolk County, Massachusetts, and it was on this farm, in 1939, that her first drop-ear Norwich "Bruff" came to live. By Trump of Boxted out of Muffin, this dog was a gift from the Partree Kennels of Josephine Spencer, and while he only sired one litter it proved the point that from small acorns come mighty oaks. The result of breeding Bruff to Henry Bixby's "Jenny Pinch" was CH. Tuff, CD, who proved to be an outstanding and prolific American-bred sire. A power at both River bend and Partree, this dog of sound type and temperament also laid the foundation for, among others, the premier kennels of Bethway and Castle Point. Mary Baird loved to tell the story, "I bred to Sylvia Warren's Tuff not only because he was an exceptional dog, but also from sentiment. His grandfather was my original (drop-ear) Norwich, Snuff, a black and tan I had owned in England in 1930. CH. Tuff contributed a dark eye, bone, a perfect scissor bite, harsh red coat, intelligence and independence. He sired my very first champion, Castle Point Simon". Barbara Fournier attributed her success line-breeding to CH. Tuff. "I bred my foundation bitch, Kedron Cobbler Biscuit, back to her grandsire Tuff. The result of that union produced my first champion, Bethway's Brigham Young, a cornerstone stud at Bethway".

In 1946, Tuff was mated to Kedron Dorcas which resulted in two bitches, Pippet and Solo. This event might have proved insignificant were it not for the fact that Sylvia Warren gave Pippet to her sister. And in very short order our breed had its first goodwill ambassador.

### OPEN A NEW WINDOW, OPEN A NEW DOOR

Katherine Warren Thayer was the mistress of Maplehurst Farm in neighboring Worcester County, Massachusetts, where she thrived on a love for life and nature. Most certainly, she was no stranger to the world of canine competition. Her brother, Bayard Warren, was a well-known breeder of Sealyham Terriers and holds a place in dog history by breeding and owning the Westminster Best In Show winner of 1924, CH. Barberryhill Bootlegger. With the

arrival of Pippet, Katherine Thayer quickly took on the challenges that can face a numerically small breed. She had observed several good breeds fall into disrepute through the exploits of a few and, along with her sister, was a champion of the "do-it-yourself-show-it-yourself" school. Together with her friend, Josephine Spencer, the unofficial Breed Club was reorganized and gained AKC recognition in 1947, opening doors at home and abroad. With Mrs. Spencer as the first official President and Katherine Thayer as its Secretary the breed prospered. Judges sent a copy of the Standard, emphasizing its working origins; detailed records and statistics were kept; prospective members were personally sought; a monthly AKC Gazette was provided; specialties, match shows and trophies were established; and perhaps of most importance, a warm relationship was formed with British breeders which allowed for easier importation of desirable bloodlines. One such import was Katherine Thayer's Hunston High Flier. This black-eyed son of CH. Waveney Valley Alder, considered by many to be a forefather of today's Norfolk, proved his own worth on these shores by siring many a good dog, the best known among them being the dominant CH. Bethway's Tony, and River Bend Tory, the first of its breed to earn the coveted title of UD. While preferring to leave the breeding of dogs to others, Katherine Thayer's eye for form and function was unmatched and she freely communicated her ideas and convictions to fellow breeders with extraordinary results, laying the foundations which have preserved the breed as a sporting companion. Past president Alden Blodget spoke of Katherine Thayer, "Due to her untiring efforts, our breed's future is secure: in the home, in the field, and in the show ring. Let Mrs. Thayer's ideals continue as an inspiration to all those who safeguard the best interests of our breed."

Katherine Warren Thayer died in 1958, a profound loss to friends and breeders both here and in England. In just twelve short years of breed involvement she managed to accomplish what many could not do in a lifetime. Her sister Sylvia carried on, breeding and working on behalf of their beloved breed. In the waning years, River Bend's drop-ear breeding relied heavily on the talents of Mt. Paul Heidi (CH. Mt. Paul Anderson x Castle Point Styx) who produced a litter of six from Bethway's Pence, a litter of five from Gotoground Fox Hunter, and another litter of five from CH. Bethway's Pensum. In 1968, after years of persuasion, Sylvia Warren finally accepted the position of Club President, remaining thereafter as its Honorary Vice-President until her death in April of 1972.

Two weeks later at the Club's Annual Meeting, longtime friend and then Club President Mary Baird read to the membership "*Be it resolved that the Norwich Terrier Club recognizes the enormous contributions of Sylvia Warren and her late sister Katherine to this club and the breed. Together, from our breed's smallest beginnings, they held us together with the highest standards of integrity and sportsmanship. Each in their own way had a clear understanding of the best interests of the breed, determined that its working qualities be recognized and preserved by an enduring foundation. Be it resolved that this Resolution be spread upon these Minutes, April 28, 1972.*"

The Resolution carried by unanimous vote.

Katherine Thayer and friends, 1956 Match Show

## The Bethways Norfolk and Barbara Fournier By: Barbara Miller

She was a constant at Westminster Dog Show even when her health didn't cooperate. You could find her easily in a crowd: black cowboy hat, turquoise jewelry and the usual cowgirl jacket. It wasn't always that way as Bobbie, as she was called, was born and raised in Bethany, Connecticut. It was in her home state that she fell in love with the Norwich Drop Ear and became an early successful breeder. Bobbie trained her Norfolk, groomed them and was proud as punch exhibiting each of them. Not too long ago I stumbled upon a photo of one of her famous dogs, Ch. Bethways Ringo. What a chunk! I wish he were around today because I'd certainly use him on one of my bitches. For the most part the early Norwich and Norfolk were a bit fine boned but not Bobbie's. She had her breeding program down pat. Ringo did his owner/breeder proud by going group 4 at the Somerset Hills Kennel Club, while the club's president, Mrs. Anne Winston looked on. Bethways Norfolk covered both coasts as they were well represented in California by Ch. Bethways Miss Chops at both the Ventura and Santa Barbara shows in 1970.

On an Easter Sunday in 1974, with her friend Monika Doerk, the two women packed her grandmother's motor home with their belongings and dogs and headed for Santa Fe, New Mexico. The kennel property was being sold and they had about six weeks to shut down and move out, sort of like the early pioneers. The move opened her heart to the sun, warm climate, less pressure and lots of horseback riding. She was a transplanted easterner turned cowgirl. Jane Anderson of Mystic, Connecticut, offered to take on Bobbie's retired Norfolk, including Miss Chops. Ch. Bethways the Red Baron was at Jane's and I so much wanted to breed to him. Off I went to Mystic and the Baron but unfortunately the breeding didn't take. Ringo went with Bobbie to Santa Fe along with puppies and about eighteen adults. All the furniture, horses and farm equipment headed out west in a commercial van.

Bobbie became a member of the Norwich Terrier Club in the early 1950's and remained a staunch supporter until her death. Her early friendships in the breed included Anne Winston, Mary Baird and Joan Read. She was an outstanding judge and played the game fairly, judging the dog, not the handler. She was with me in the mid-1990's when I judged an Open show in England. She was a good friend to the Norfolk and their owners. This cowgirl didn't have a mean bone in her body and had a good word for all. Her friendships traveled near and far. Anyone who visited her in Santa Fe was sure to be taken on a trip to the Grand Canyon. She was generous to a fault. Her niece, Holly, sent me her black cowboy hat. It's a treasure as she was.

---

In 1952, Bethway's breeder-owner made her ring debut with a home-bred puppy at Eastern States Dog Show in Boston. Fifteen years later, Barbara Schiff Fournier ended a most successful season at this historic show by having two new champions crowned and winning the breed with the great grandson of Brigham Young who started the Bethway dynasty. This year Bethway's Aramis (whelped 2/18/67) was Winners Dog. He is by (Eng.) Nanfan Nugget ex Bethways Little Tinker Bell and is an exceptionally forward young showman with a wealth of bone, the straightest of top-lines, and has well angulated hindquarters. That influential stud force, Ch. Waveney Valley Alder, appears in all quarters of his pedigree. Winner's Bitch, Bethway's The Duchess by Ch. Bethways Tony ex Ch. Bethways Scarlet is best known for her sweepstakes win in 1965 and as half of a great winning brother-sister brace. At Boston, Judge Mrs. Hartley awarded brother, The Duke, BOB, a hard decision to choose between the handsome big pair on the first occasion this judge has presided where Drop-Ear Norwich were present. She was truly impressed by the uniformity of the Bethway type.

The 1967 high score Breeder of the year with 36 points represented by 10 dogs (9 breeder-owned) from 8 litters by 6 sires and 5 dams is Barbara S. Fournier. These points are accumulated at Club Match and Specialty Shows.

From The Norwich and Norfolk Terrier News, Circa 1967

## Castle Point Norfolk and Mary Baird Mt. Paul Norfolk and Ann Winston

### A PERFECT STORM IN THE SOMERSET HILLS By Sue Ely, Pinchbeck Norfolk Terriers

My introduction to what is now known as the Norfolk Terrier came as the result of a perfect storm in Norwich Terriers, D.E., and a dinner party at Anne Winston's in 1963. The storm had been building since 1951 with the descendants of Mary Baird's Snuff and Sneeze at her Castle Point Kennels, in Bernardsville, NJ. Upon the untimely death of Josephine Spencer in that year, Mary was able to buy Partree Cobbler and breed him to her best bitches, descendants of Snuff and Sneeze. There on the Bernardsville Mountain their get and progeny flourished in kennels built amid the specimen trees and generous paddocks of Castle Point under the watchful eye of Mary's indispensable kennelman, Robert Young.

The storm gained strength in 1953 when Anne Winston bought a bitch, Castle Point Trivet, from Mary Baird. The Winston farm included a nice portion of the valley of the Raritan River's north branch and extensive woods along the flank of a gentle hill, Mt. Paul, between Peapack and Mendham. By 1954, the Mt. Paul kennel was a force to be reckoned with among the ranks of drop-eared Norwich Terriers. Mt. Paul Anderson, the first champion Anne produced, was the result of Castle Point Trivet bred to George Pinch. Descended from imported English stock and owned by Louis Murdock, George was a game dog to ground, and many of his get excelled at earthwork. Several were used to bolt foxes by Buster Chadwell, longtime huntsman of the Essex, NJ, Foxhounds.

The third thrust of the storm formed in 1956 when Priscilla Mallory, who lived on a working farm between Gladstone and Mendham, halfway between Anne and Mary, bought a bitch, Mt. Paul Bridget, from the next litter of the same breeding as Mt. Paul Anderson. While Anne and Mary explored and enjoyed all the talents their terriers had, Priscilla's focus in the next years at Wendover was predominantly on conformation. Although she valued the breed's natural talents, she worked carefully on the genetics of each generation, seeking to produce the finest specimens. She was a fixture at the local match shows, and, as a good friend to both Anne and Mary, often had an opinion about a litter or new import that was taken very seriously.

For the next 20 years these three ladies were the prevailing winds of the Somerset Hills and of the widening world of the Norfolk Terrier. Not only did they expand their breeding programs by using each other's dogs, but they widened and deepened the Norfolk gene pool by continuing to import dogs from English kennels, notably Nanfan, Ickworth, Ragus, and Colonsay. They competed joyfully, critically, and not just in the show ring. Anne Winston was the first person to win an American Working Terrier Association certificate; and Mary Baird hosted many AWTA meets at Castle Point, complete with a rushing stream and a raccoon in a cage!!! Priscilla Mallory produced some extremely influential and versatile dogs as a result of her sharp eye for selecting good stock both at home and in England.

These three women were my mentors. They provided me with an unparalleled wealth of knowledge and encouragement. My first Norfolk was a Mt. Paul Anderson son. Anne sold him to me at that dinner party in 1963. I have gone from that beginning with fond memories and the knowledge I gained in a perfect storm.

# Foundation 1950-1960

## Chidley Norfolk and Joan Read By Beth Sweigart

When I lived in Virginia and bred Labradors, I knew Mrs. Read as a preeminent Labrador judge. I came to know her as a friend and mentor through her son Curtis who of course had Labradors and lived near me in Virginia. Joan and I first co-owned a lab she bred who was winner's dog at the national. We became even closer when I became involved with Norwich and Norfolks when I moved from Virginia to Long Island. She owned my first Norfolk sire Elve Pure Magic (TG) bred by Michael Crawley. TG had a short but influential career as a stud dog in the 70's.

Mrs. Read was born to a life of privilege in New York, her family being one of the most important in New York if not the country. Both President Franklin Roosevelt and Theodore Roosevelt were her relatives, Franklin being her cousin. In her early years she was a great sportswoman actively involved in showing both horses and dogs, both in the field and in conformation. She apprenticed judging under the great Percy Roberts and her keen mind and eye for a dog made her a great student. Her career as a horsewoman and Labrador handler in the show ring and field was cut short by Polio contracted while she was in her 30's. She turned her attention to a breed whose size suited her, Norwich, in the early 50's. She bred prick ears for many years with great success and introduced a line of drop ears in the 70's. First with Shenanigans of Chidley her foundation bitch followed by the purchase of TG from Michael Crawley, his first litter of Norfolks. TG was a very influential sire in his time forming the foundation for many of the early and current breeders, Abbedale, Surrey, Venerie, Yarrow, Greenfield, and Glenelg and the Alright Kennel in Germany.

Mrs. Read was never one to campaign a dog she only wanted to exhibit at the meaningful shows. Having her dogs gone to the shows every weekend did not appeal to her even if you told her she had a good chance to win the group. She would say, "I would rather win the breed at Montgomery or one of the important shows where Norfolk breeders gathered". She was a great dog person who studied pedigrees and progeny and could be relied upon to give a fair, if no-holds-barred appraisal of a dog or litter or prospective breeding. She had great success as a breeder herself in Labs, Norwich, and Norfolk. Her CH Royal Rock Don of Chidley is unsurpassed in influence as a Norwich sire producing close to 100 champion offspring as well as 2 Westminster Best in Show winners. I think Norfolks won her heart because they are so game and determined, both qualities she shared with her beloved dogs. This love was demonstrated by her writing the definitive book on the breed The Norfolk Terrier. This tome took years to complete and occupied many of her waking hours. She was thorough in her research and sure of her facts and managed to produce one of the most comprehensive breed books available. The Norfolk Terrier was a true labor of love. Besides believing Norfolks should have a book of their own, she believed Norfolks should have a club of their own. When the breed divided, she felt so strongly that there should be two clubs that when the NTC became the NNTC she founded ANTA, still an active Norfolk Club dedicated to the complete Norfolk Show Dog, Earth Dog, and companion. ANTA still holds annual events at which many Norfolk people gather to learn more about their breed and enjoy the day of showing, working, and doing all the things Norfolks love to do.

Joan's legacy is not just her fabulous book or ANTA, but, more importantly, the many people she introduced to the breed and those of us in Norfolks she nurtured and helped develop. So many people who are important breeders today owe a great deal of their dedication and knowledge to Joan. I, for one, will always be in her debt as she was both my mentor and friend. The many hours I spent in the evenings talking to her about dogs and the dog people who first introduced and bred Norwich and Norfolk was invaluable to my understanding and appreciation of the breeds. I only wish I had the foresight to record even a part of all the first-hand knowledge she had. Those of us that knew her were privileged.

Joan was as determined as the little dogs she championed and it was this determination that helped her overcome all of life's obstacles. I feel privileged that she counted me as a friend and shared her love of our breed with me.

# Foundation 1950-1960

## Badgewood, and Elisabeth and Philip Fell By Barbara Miller

Philip, known as "Tiny", and Elisabeth, called "Betty", were always involved in one breed or another. She grew up with Whippets and Wires in the house that her parents leased from the Phipps family on what is known as Old Westbury Gardens here in Long Island, New York. As a teenage, her mother gave her a Sealyham Terrier. Tiny, on the other hand, didn't own a dog until Betty purchased a Beagle for him when they became engaged. A move to Pasadena, California, an eight year stint, occurred when they got married due to Tiny's career with the Union Oil Company as a top executive. Betty showed her Whippet on the west coast and finished him when they returned to Long Island in 1956. Both Betty and Tiny were born to prominent families, he a great grandson of Anthony Joseph Drexel, the founder of Drexel University; she related to many well known Long Island families.

The Fells lived in Kent, England, for ten years when he became an executive of Gulf Oil in 1960. Years ago Betty told me having the National Forestry as their backyard was an ideal place to run her Whippets. She had her heart set on the Norwich and Norfolk breeds, having spotted two, owned by Henry Bixby, at the Westbury Kennel Club, which were exhibited by the great Percy Roberts in 1935. In 1960, in England, they purchased their first Norwich from the Ragus kennel of Marjorie Bunting, Ragus Elegant Lady. On a trip back to the states, they purchased a Norfolk bitch Ch. Newry's Mrs. Mc Thing handled by Len Brumby. The Fells bred her to a Bethways stud and returned to England, whereby the bitch delivered in quarantine. And so their involvement in both breeds began early on and our breed is better for it.

Tiny was the club delegate from 1974 until his death in 1979. It was his fortitude that enabled the breed to become two, with final approval from the American Kennel Club. And so it was in January, 1979, we became two breeds, the Norfolk and Norwich. Betty became a judge in the early 1930's due to her mother's encouragement and judged both in England and the States at such shows as Westminster and West of England Ladies Kennel Society (England).

In the fall of 1979, the Fells hosted the club's Match show at their showplace, Badgewood, in Oyster Bay, Long Island. They asked me to serve as Match show chairman. During lunch they provided live music and wine and I enlisted members to supply a goodly amount of food all served on a perfectly manicured lawn. It was a perfect Fell day.

Ch. Badgewood The Huntress was Betty's favorite Norfolk. She won the National Specialty two years in a row, 1977 and 1978. Jack Simm was their private handler for many years here in the States. He piloted Ch. Badgewood Monty Collins to a National Specialty win and a two time winner of the breed at Montgomery in 1975 and 1976. The Badgewood Norfolk and Norwich were a force and we all owe the Fells a round of applause for their fortitude in bringing the breed to the public and for their involvement in all club activities.

By Geoff Corish,  
Professional Handler

In this life of ours, we go along day to day, meeting people as we do, and if we are lucky we meet someone exceptional. For me that person was Joy Taylor.

It happened slowly. Of course I had read the wonderful Nanfan adverts in the dog press and had seen her at various shows. At this time she had a handler called Andrew Hunt. Andrew had been my best man at my wedding and obviously we were good friends. At this time another close friend, Dorothy Dorking 'Lowmita' was showing Toy Poodles quite successfully but admired Joy's Norfolk. Could I introduce her and, more importantly, would she sell her a puppy? So at one of the shows I saw Joy with Andrew and so I took Dorothy, introduced her and left them to discuss purchasing a puppy. It was not long afterwards that Dorothy did indeed acquire a puppy, and he turned out to be Ch. Nanfan Nectarine. He was the first of several champions for Dorothy, another being Ch. Lowmita Hazelnut. Through this puppy I got to know Joy better and would often chat at shows. Then came the phone telling me that she and Andrew had parted company and would I consider handling Nanfan's for her? Would I? You bet I would and I jumped at the chance.

The first Norfolk I handled for her was in 1983, Ch. Nanfan Sweet Potato. 'Spud' was one of the sweetest dogs to show, but also would stand his ground if necessary. He had one of those wonderful heads that the Nanfan's were famous for. He was Best of Breed at Crufts in 1983 under Mr. Reg Gadsden and Best in Show at the Jubilee Breed Ch. show in 1982. He was also top Norfolk in 1982. If his showing career was a fabulous one then as a stud it was even better. In the famous 'C' litter, he sired Ch. Nanfan Catmint, Nenne Nunsten's Ch. Nanfan Category in Norway and even more famous was Barbara Miller's fabulous Ch. Nanfan Crunch, who I believe started the Maxwell's. 'Catmint' was another lovely dog to show. He was on the large side but very sound and again that fabulous head and mouth and big teeth which sadly we seem to be losing. 'Category' was, I believe even better than Catmint. I was judging in Sweden and this dog walked into the ring and I just thought, 'Wow', never even thinking that he was one of Joy's. When I saw that head and expression I knew it had to be, somehow. Joy's dogs always had the most fabulous coat textures and color, with rich reds. Because of the hard coat texture, often growing furnishings was very difficult. She was very critical of black and tans and would not have one near her! Even now there are no black and tan's at Standhall Cottage!!

Around the time I was showing for Joy, her biggest rival was Marjorie Bunting of Ragus fame. I can't say Joy hated Marjorie, but both being strong women, they were never close either. I think in fairness to Joy, she could acknowledge a good Ragus, whereas I am not sure Marjorie would a Nanfan. Eileen Needham was probably more into Norfolk's then than now. We see her more these days with Norwich. But the 'Titaniacs' had a lot of Nanfan behind them and Ch. Ferdinand the Warrior of Titanium had Nanfan Sleigh Belle as her dam and was, I believe, Eileen's first champion. This was in the 80's and Martin Philips was just about starting in Norfolks, having previously shown Staffordshire Bull Terriers. Jaeva Matti Brown was possibly his first champion and didn't he go to Barbara Miller as well? There were several new people to the breed and just starting to find their feet. Rita Mitchell had a Daffraann bitch from Daphne Thacker, and David Saltmarsh was showing Pipridges Hustler, who was by Joy's Ch. Nanfan Summerstorm, and later became David's first champion. Of course the Ragus dogs were always handled by Marjorie's daughter, Lesley Crawley. I would need a separate article to chronicle this kennel's dogs. Like Joy, they came thick and fast.

I suppose not many of you out there would have been able to visit Joy at Standhill cottage. So, what was it like? For me, it is like paradise! Situated close to the Cotswolds and the ancient city of Worcester, you drive down this lane which you imagine no one lived on and then suddenly, there it is. Set back off the road, black and white faced frontage. It is so old that Joy told me one day that Cromwell had actually stayed there one night on his travels back to London. Now that IS old! Inside there are stone floors, beams and wattle walls, but it has a magic all of its own. In the kitchen she had an Aga oven which she used to have to fill with coal to keep the whole house warm. Even then if you went in winter you still had to sleep in something warm! Joy was as 'tough as old boots' as we say over here. The dogs were up the garden in a range of old stables and she always believed that these were essentially working dogs and as such, should be allowed to work. Often she would come to a show without one of the dogs, saying it had gone to ground but would be out by the time she got home.

Joy was not always an easy person, but generated respect wherever she went. She worked hard in all weathers, in pouring rain and even in snow, she would be out with her beloved dogs. In my eye she has made the breed what it is today. To know her was to love her.

Her death was a great blow to all who knew and loved her. She is buried in the most beautiful English Churchyard you could imagine, and is within sight of her beloved Cottage. Elisabeth Matell of Cracknor fame now resides there and even now when I am there I often say to Elisabeth, "Make sure you do it right because Joy is watching you".

## Ragus and Marjorie Bunting

By Lesley Crawley

The kennel name was chosen by my mother, Marjorie Bunting. It is sugar spelt backwards, 'Little Sugars' being the words her sister June used when speaking to all small creatures. Rags, the most influential stud dog in Norwich during the development of the breed, and us, also make up the name. Consequently it seemed appropriate and the prefix is pronounced Raggus instead of the phonetically correct, Ray-gus.

My grandmother, Grace Marks, joined my mother as a partner in the early days. After her death I joined as a partner. I believe I was about 13 at the time.

The kennel has bred and/or owned more than 110 champions, most of which I have handled. Another 20 champions I have handled for my husband, so altogether in 4 breeds (Norfolk, Norwich, Australian and Borders) there have been at least 130 champions handled by myself or my mother. Ragus is only the second kennel in the UK to have owned and/or bred over 100 champions.

My best champion ever is CH Ragus Rings True who, in 2008, took the British dog scene by storm, winning 8 consecutive terrier groups, 12 all told, and 3 BIS all breeds so far. He has taken virtually all the show records possible for a Norwich, ending last year as Top Terrier and 3rd Top Dog all breeds. He was also the top British, owned and bred Terrier at Crufts 2009. Most of his wins have been awarded by dyed in the wool Terrier judges which is surely a great compliment.

My other top dogs were CH Ragus The Devil's Own from whom Rings True has taken many records and CH Ragus Truly Unruly, Rings True's dam, the first and only bitch to win more than one group in the UK. She and her son (Rings True) are the first parent and offspring to win BIS at the National Terrier, our top terrier show. So far she is the dam of 6 UK champions from only 3 litters and has been the top Norwich Brood every year since her first litter, including Top Terrier Brood in 2006. She is the most successful all around Norwich bitch ever.

In Norfolks, Ragus still holds the top Stud Dog record for 17 champion offspring with CH Ragus Whipcord, the first black and tan champion, and Top Brood with 7 champion offspring for CH Ragus Brown Sugar. These records have been held since the 1980's.

One of the best Norfolks we have bred is CH Ragus Bewitched who founded 5 generations of champion bitches, a Norfolk UK kennel record. The sixth generation down the Bewitched line was CH Ragus Boy Blue who won 16 CC's in all, 11 of which were won as a puppy, an all breed UK record still. Altogether, Ragus has bred or owned 35 Norfolk champions.

Since my husband's death I have not bred Norfolks because I could not keep more than one breed and I choose to keep Norwich, always my favorite. Also Norwich needed me more and I live next to a well-known Norfolk kennel, Belleville, so I don't miss them.

Altogether in Norfolk and Norwich I have handled 12 different group winners and 4 different BIS winners, including the first Norwich BIS winner, CH Ragus Gypsy Love. No other kennel of Norwich has owned, bred or handled an all breed BIS winner to date.

The Ragus kennel will soon be 70 years old and is certainly the oldest kennel of Norwich still to be breeding and exhibiting.

# English influence-Early

## Elve and Michael Crawley By Lesley Crawley

Michael Crawley's kennel of Norfolk, Norwich and Australian Terriers came by its prefix by chance. The English KC turned down over 20 name applications and finally accepted part of the name Elvenring, so Elve came into being. It is pronounced LV and became one of the most well known prefix's in the UK during Michael's 23 years of breeding and exhibiting.

His first 4 champions Michael handled for himself but later he preferred to take a seat at the ringside and watch his wife Lesley handle his dogs.

The kennel achieved 16 Norwich, 2 Australian and 11 Norfolk champions, only 5 of whom were not home bred. Among the many wins the kennel had were 2 all breed BIS's, 2 Best Puppy in Shows at the National Terrier (The UK's top terrier show), 9 group wins in 2 breeds one being at Crufts. From 1990 to the year 2000, Elve Norwich stud dogs were top sires on the breed club points table for 8 of the 10 years.

In 1996 Elve stud dogs held the first 4 stud places, a record yet to be equaled or beaten in Norwich.

Michael's most famous Norwich stud was CH Elve The Viking, whose 11th champion offspring was the group 1 at Crufts, CH Elve Stormwizard.

His top Norfolk stud dog in the UK was CH Elve Cloudyhead, who won Top Stud twice and was sire of the first male group winner and the first multiple group winner in Norfolks. This was CH Salette Gold Bullion who won 25 CC's, a record at the time. In the USA he bred the well-known stud dog AMCH Elve Pure Magic, owned by the late Joan Read. He also bred ENG and AM CH Elve Nick Redthorn at Belleville, who was 2nd Top Terrier in the USA in 1998.

In Australian Terriers he bred 2 champions, one of whom, CH Elve The Forger, became the first Aussie in the UK to with a Puppy Terrier Group and when adult, won 2 group 2's at a time when Australians never won such awards in the UK.

The most famous Elve Norwich was CH Elve The Sorcerer, who was the first male BIS winner. He was also the first multiple group and BIS winner and was certainly the pathfinder for such wins in the UK and is in the pedigrees of most top-winning dogs today.

# English Influence Current

## Belleville

**By Cathy Thompson-Morgan**

I got my first Norfolk as a pet in 1987. I had never seen a Norfolk before and had found them in a book in the library, liked the look and the sound of them, so set out to find one.

My ‘affix’ was registered in 1992 and was the name of the house that I was living in at the time.

In 1990, without knowing what I was doing at the time, I bought a bitch (Malbis Jenny Wren) from a small pet breeder. It later turned out that she was by Lowmita Nutcracker, a son of Ch Ragus Whipcord (sire of 16 English Champions), whilst her mother was a granddaughter of Ch Ragus Songbook, also a son of Ch Ragus Whipcord. Although no great star herself, Jenny had great breeding. She turned out to be the mother of my first homebred Ch. Belleville Cloudscape and grandmother of Ch Belleville Clouvoyager, who is in the pedigree of every Belleville bred Champion except his mother, litter sister and full brother!

The reason that I was so successful in my first few litters was that the first “real” breeders that I made contact with were Lesley Crawley and Marjorie Bunting (Ragus) and Michael Crawley (Elve). Lesley and Marjorie educated me in line breeding; Marjorie would sit for hours and tell me about dogs in the pedigrees, plus she still had Ch Ragus Songbook as a very old dog.

It was through their advice that I mated Jenny to Ch Elve Cloudyhead (ultimately the sire of 8 English Champions and who had Whipcord as a Great- Grandfather 3 times and a GG Grandfather 3 times) and who was consistently siring nice puppies to lots of different bitches. This produced Cloudscape. In addition Michael Crawley let me have Ch Elve Willow Goldworthy with him in partnership and she was my first CC winner and my first champion. She was a Cloudyhead granddaughter through her sire Ch Salette Gold Bullion and, when mated to Clouvoyager, produced my first Champion show Group winner, Ch Pirouette at Belleville.

Since those early days, Belleville has been Top Winning Norfolk Kennel in the UK every year but one since 1994. We have made up 32 Norfolk and 10 Norwich Champions. We won Group 2 at Crufts in ‘04 with Ch Belleville Sweet Nothings (2 x BOB at Crufts including ‘03 where she was also BPIB). She was also BPIS at the National Terrier Club Championship Show in ‘04. She won a Group 1 and several other Group placings. Ch Pirouette at Belleville won 2 Groups and a RBIS. Ch Belleville Magic Flute won a Group and several placings. Ch None Stop to Belleville won 2 Groups. Several other have won Group placings. We have also just won our first CC with our Portuguese water dog.

I was secretary of the Midland Counties Norfolk Terrier Association for 10 years. I am an accredited breeder and a member of the Kennel Club. I also wrote breed notes in Dog World for both Norfolk and Norwich for several years.

# English influence, Current

## JAEVA By Martin Phillips

I started in the dog world with Staffies, and was quite successful in the breed, which my family kept. When I left home, I could no longer keep Staffies and looked around for a smaller breed, which I could keep and campaign. Luckily, I met a lady by accident, who owned and bred Norwich, and she offered me a bitch which was BEECHWOOD TABITHA TWITCHET. She also gave me the name and phone number of Mrs Marjory Bunting and her daughter Leslie to give me help and advice on trimming and showing her. Eventually, when I did start to show her, I had great success by gaining top Norwich and 13 CC's. She became my first Champion in this particular breed. Obviously, I came into contact with the sister breed, the Norfolk, and fell hook, line and sinker for them. I bought my first bitch from the Ragus kennel. She didn't make a show dog, but a very successful brood bitch by producing a daughter who then produced my first homebred Champion, CH. JAEVA BOX BROWNIE.

I owe a great deal to Mrs. Bunting and her daughter Leslie, for all their help and advice. I especially owe Marjory for her great depth of knowledge in breeding and pedigrees which she taught me, and for Leslie for her help in grooming and handling. I would also like to mention Mrs. Joy Taylor of the Nanfan kennel, who was a great mentor. I think I was very well blessed by having 3 of the most experienced people in dogs giving me help and advice by teaching me the finer points of breeding, showing and judging. I owe a big thank you to these three ladies!

Obviously, my first choice would be a dog I loved and thought a great deal of as a family dog. It was fortunate that he was a super show dog and stud and that is ENG/AM CH JAEVA MATTI BROWN. I think he is in most Norfolk pedigrees today, including Coco and many other great dogs in the breed.

My 2<sup>nd</sup> choice would be a dog that I campaigned to top Norfolk in 2007, CH JAEVA FOR PETES SAKE, who again has proven himself as a great sire and producing lovely type and temperament.

My third choice would be ENG/AM CH. JAEVA DUTCH GOLD, who was a fantastic show dog by winning lots of Terrier Groups and the first male Norfolk to win a General Championship show of his time. Giving me the best win ever was under the famous judge, Annie Clarke, who thought of him so highly that she gave him BIS at the Centenary Norfolk Club show with a record entry.

I love judging abroad, and have had the honour to have the advantage of putting my hands on other breeder's dogs in different countries. Yes, I find they do vary from the UK. I find a lot of it is due to not enough bloodlines to widen the gene pool, so they are very cloned in some countries to what particular dog is winning at any particular time. Marjory Bunting taught me a male dog is most important to the breed as he stamps his type, good or bad, to the most number of bitches, where a bitch is a great asset to one's own kennel for producing their own lines.

# English influence, Current

## CRACKNOR

By Elisabeth Matell

Whenever (which is often) I think of the marvelous, unique, wonderful, clever, charming, funny and infuriating Joy Taylor, so many happy and sometimes funny memories come flooding back. I lived in Sweden and I had never heard of her or of Norfolk Terriers when I read the *Dog World Annual* in 1966 and came across her black and white advertisement. There was a photo of a young Ch Nanfan Heckle and I fell immediately and thought "There's the breed I've been looking for all my life". A believer in instant gratification, I wrote to Joy and ordered two bitch puppies. I was most put out when she wrote back saying that I would have to wait a couple of months. Eventually my Nanfan puppy, a daughter of Heckle and Needle, joined my Swedish bred bitch who was of Colonsay breeding.

At Crufts 1967 I met Joy for the first time and was very taken with her and her dogs. She won BOB with Heckle's brother Ch Nanfan Hayrake. As we were talking, it was decided that I'd come over to work as a kennelmaid later in the year, so I arrived at Standhall Cottage in July. I stayed four and a half unforgettable months, looking after the legendary Nanfans. I learnt so much, but I could feel I didn't come up to Joy's exacting standards so left a bit earlier than planned.

However, Joy and I stayed in touch when I returned to Sweden and she sent a couple of influential stud dogs to me, Ch Nanfan Spikeman, and Heckle's last son, Ch Nanfan Sweetcorn. Whenever I visited Standhall Cottage, Joy was the consummate hostess serving delicious food, strong gin and tonics and she let me go through all her beautiful dogs. At the time she had a strong stud team of six or seven champions, several champion bitches and every year another couple of outstanding youngsters. All the dogs were in perfect trim, show dogs, veterans and puppies; you never saw a shaggy Nanfan or one out of coat.

When I moved to England in 1977, Joy and I became closer and I came to look on Standhall Cottage as my second home, never dreaming that one day I'd be living there with my dogs. I spent many hours watching Joy trim her dogs and teaching me how to read a pedigree. Not that I was a very good pupil, but I was proud of the fact that my record holder "Betty" (Ch Cracknor Call My Bluff) was three quarter Nanfan bred and the well known "Coco" (Ch/Am Ch Cracknor Cause Celebre) half Nanfan-bred.

The superb breed type of the Nanfans is etched into my memory, the lovely head with smallish dark eyes, neat little ears, the large teeth, good bone, thick well-padded feet and the harsh, three-layered red coat. And I shall never forget the inimitable Joy who taught me that you only get out what you put in, to aim for the best, not settle for second best and that success doesn't happen by chance, you have to work hard for it.

# Link

## Max-Well By Barbara Miller

As a seven year old you don't really know much about dogs or, I should say, I didn't, therefore, when asked what breed I wanted, the Irish Setter was my answer. After all, I was totally mesmerized by a book about the breed I remember my mother reading to me. The setter proved to be an ill choice, as it chased after birds quicker than my little feet could run. After two years, she went to live out her days on a farm owned by my dad's friend. I in turn negotiated for my first Collie. Dad and I visited a huge collie kennel, whereby I pointed to a beautiful tri-color announcing, "That's the one I want". The breeder wouldn't sell him because she claimed he was a "show dog." We returned home dog-less. The following day, I phoned the breeder stating my dad's construction company would make all the repairs to her home and kennel if I were allowed to have the dog. The deal was struck. Dad thought it quite clever of his nine year old daughter and so my real life in dogs began. Collies stayed with me until about fifteen years ago.

My next venture was the Soft Coated Wheaten Terrier in 1967, an unknown breed. I became the president of the Soft Coated Wheaten Terrier Club of Metropolitan New York and treasurer of the national club. In 1973 the breed was granted full recognition to the AKC, thanks to the diligent efforts of Jackie Gottlieb, mother of Canine Health Foundation president, Cindy Vogels.

In that same year I discovered a little honey-colored dog at Jack Simm's home and promptly referred to him as a darling little mutt. I was told he was a Norwich Terrier drop ear. Shortly thereafter, he sired a litter of three girls. When it was time for me to select my puppy I sat on the floor of the breeder's home deciding which of the three had the widest backside. I did my homework having read plenty about small breeds and problems of whelping. Max-Well's Rum Raison was wide from pelvic bone to pelvic bone. She also had ears more of a hound than a terrier and was as long as a train. In other words certainly not a show dog. But she did have a fabulous temperament, good eye, excellent bite and a great pedigree going back to excellent English lines. I immediately questioned Jack Simm about everything I could pertaining to the breed. When I exhausted his knowledge, I got on a plane and visited English breeders. Joy Taylor of Nanfan fame quickly became not only a mentor but a friend. And so one year, on my birthday, Nanfan Crunch came into my life. I had the opportunity of seeing the great Ch. Nanfan Sweet Potatoo and the fabulous bitch Ch. Nanfan Copy Cat at Joy's, proclaiming if and when she bred these two I would like a pup of either sex. In my opinion, Crunch changed the breed here in the United States. Our little dogs for the most part were too fine of bone with heads that needed more strength. I was the first to admit he was a bit too large overall but when bred properly to my bitches he produced puppies of substance. In due time, after he earned his championship, I sent him to Susan DePew, now Kipp. Susie showed him at Westminster, whereby he earned two Terrier Group placements making him the first Norfolk to be recognized by that prestigious kennel club. He earned fourteen Bests by the time he was retired at an early age, again setting a record for the breed. The rest is history as I consider the Kipps my other family and happily mentor Dylan and Devon in junior showmanship.

There have been many Max-Well's I'm proud of, but, just possibly, I'm most proud of the fact that Susie took to the breed as eagerly as she has and we now co-own and co-breed all Max-Wells. The Max-Well line has done exceptionally well, having bred Ch. Max-Well's Weatherman (Storm), Ch. Max-Well's Cyclone, and Ch. Max-Well's Viper, all related and all Westminster group placing Norfolk as well as Best in Show and Specialty winners. The Max-Well history started in 1973 and earned respect throughout these years because of the diligence paid to our breed, the Norfolk Terrier. Nothing is perfect in life or canines, but Susie and I are committed to health testing our Norfolks. It's important for our line and it's important for the breed.

As the 2002 recipient of the AKC Terrier Breeder of the year and again in 2007 I feel quite honored. In 2007 I was awarded the overall Breeder of the Year by the AKC. Never in my dreams, as a nine year old, did I think I would achieve such acclaim. This year the magazine, Dogs in Review, has honored myself and Susan Kipp as one of the nominees of Breeder of the Year. I've served as president of the Norwich and Norfolk Terrier Club and was thrilled when division of the two breeds into two clubs was achieved. This past Montgomery weekend saw both clubs march into history as each held separate Specialties under our new banners: the Norwich Terrier Club of America headed by Joan Eckert and the Norfolk Terrier Club presided over by me.

This being our first ANNUAL, I trust you will all enjoy the contents and remember our little guys do not ask to be here...we, the breeders, must be the protectors of their lives.

## Yarrow

### By Beth Sweigart

I was born on Long Island and educated in Virginia and Pennsylvania. I lived for many years in Virginia's Shenandoah Valley, where I began breeding Labradors under the Yarrow prefix through the 1970s and early 1980s. At this time I was very involved with the formation of the Labrador Retriever Club of the Potomac and the all breed club Skyline. I was show chair and past president for both.

My first Norwich, Ch Summercrest Lady Josephine, by Ch Radash Tarquin, was bred by a friend of mine in Virginia. When my friend became terminally ill, she gave me Josie and that was my start in Norwiche. My first Norfolk soon followed, bred by John Mandeville in 1976, Ch Raggedge Are You Ready, aka "Muffin", and was my constant companion and the foundation of my breeding program. She was both a great show dog, winning Best of Breed at Westminster Kennel Club, and the first Norfolk bitch to win a terrier group, plus she was a wonderful producer. Muffin was also a great ambassador for the breed, as through the early years of my professional handling career she accompanied me to every show and would sit on top of one of the crates greeting all passersby and clients. Muffin was a "talker" and everyone was charmed by her gregarious nature. She was diagnosed with micro valve disorder at 8 years old and passed away just shy of her 16<sup>th</sup> birthday; the cause-CANCER! I was devastated.

Mrs. Curtis Read was my first client and was my mentor and guiding light. I started showing dogs for her while living in Virginia and continued while I lived on Long Island, until her death in 1995. After Mrs. Read's death, I moved to PA with Peter Green, forming the very successful "Green Team" of handlers. My time with Mrs. Read was invaluable, her knowledge of the breed was astounding and she was anxious to share her experience with newcomers to Norfolks and longtime breeders as well. I showed dogs for her and for many of the people with whom she placed show-potential puppies. One couple was John and Pam Beale, who visited her after acquiring a bitch from Joan Eckert (Abbedale). I finished the bitch for them and that was the start of a life-long friendship with the Beales. Since that first Norfolk, we have combined our breeding programs and produced a line of Norfolks that have not only won consistently in the show ring, but have provided companionship and love to many families.

Of course, the highlight of this partnership has to have been the introduction of Elizabeth Mattel's Ch Cracknor Cause Celebre aka "Coco". She was and is the highlight of my professional handling career and is still the joy of my life. Coco's career was unparalleled, not only for a Norfolk, but for just about any show dog. She was undefeated in breed competition throughout her specials career and won almost every major dog show there was to win-the AKC invitational, Montgomery County, Great Western, 2 Groups at Westminster, and her final triumph Best in Show at Crufts in 2005. She caught the imagination of both the fancy and the general public and became a celebrity. An ambassador for the breed, Coco made friends wherever she went. After her retirement, she made trips to her co-owner Stephanie Ingram's in Nashville to help raise money for the local animal shelter. Coco posed with all comers and helped raise \$60,000 for the shelter, a pure-bred helping less fortunate shelter dogs. The cover dog for Bo Bengston's "Best in Show", she attended a book signing at Westminster and enjoyed the limelight yet again.

My partner, Peter Green, and I retired from Professional Handling at Westminster in 2006. Since then we have embarked on a judging career. I continue to breed and show my Affenpinschers, and the Norwich and Norfolks I breed with the Beales, mostly in the Bred-By class. We all enjoy the promise of a youngster and what might be in his future. Judging has proved both interesting and rewarding. I was honored to be selected by our members to judge our breed at Montgomery County so early in my judging career.

I can only say that my involvement with dogs and Norwich and Norfolks in particular has lead me to a life that has enabled me to travel and meet lifelong friends all over the world who share my passion. I hope I am able to continue to judge for many years to come.

I remember many years ago when Barbara Miller and I were both young neophytes in the breed (before there were 2 breeds) and were at the annual match show, a VERY IMPORTANT EVENT IN THE 70's. We were amidst the likes of Mrs. Winston, Mrs. Read, Mrs. Fell, Mrs. Stephens-Baird, doyennes of the breed and we remarked on how old they were. Recently we looked at each other and realized that we are the old ones now. I only hope that we protect the breed's integrity as well as they did.

## Abbedale By Joan Eckert

My kennel name originated from a combination of my daughter's name, Abby, and a little village in England called Abbedale. My love, respect and appreciation for Norfolk and Norwich terriers started in the 60's when I worked for a kennel during the summer. Four Norfolk there soon became my favorites because of their bright, happy and outgoing but undemanding dispositions. They were so full of themselves but wanted to be your best friend. My feelings for these special little dogs have not changed over the years. I bought my first little Norfolk girl in 1977, Crumpet, from one of the original Norfolk breeders in the US, Bethway Kennels. I called her Abbedale's Tea and Crumpet. I bred her in 1979 and had three puppies sired by Ch. Elve Pure Magic. His owner was Joan Read, who is the one I have to thank for where I am in dogs today. All three finished their championships, but that was not the best. Jamie became the first certified Hearing Ear Norfolk. Nappy was a group winner and a devoted companion. And my dearest of all, Abby, became the mother of seven champions and the love of my dog life. All lived into their fourteenth year. I could say the rest is history, because it is. Over the last thirty years I have raised and owned over one hundred conformation champions or titled dogs, one Best In Show, several Group and Best In Sweeps winners and many specialty placers. But the real joy for me is seeing the dogs I breed go into wonderful homes where they enhance the lives of their families. They are so loved as companions and friends.

Norfolk Terrier, Norwich Terrier Breeder since 1977.

CH. Abbedales Ben The Brit O'Domby  
"Ben"

My Granddaughter Hailey and  
her first Norfolk "Sophie"

## Rightly So By Fritz Rumpf (with Toni Harrold)

Rightly So Kennels was established in 1982 with a very typey, Surrey-bred Norfolk Bitch. From the very beginning, this Kennel strived to breed for form and function, paying special attention to size, type, temperament, soundness and balance.

Ch Rightly So Original Sin, (Ziggy), who broke the breed BIS record in 1991, to this day remains our breed ideal. Oozing with type and personality, this amazing Norfolk not only had a profound impact on the breed, but made many a dog fancier fall in love with Norfolks.

His many wins include a National Specialty, as well as the first Canadian all breed BIS won by a Norfolk. Both these aforementioned wins were, at the time, over record breaking entries.

His accomplishments in the whelping box have reverberated over generations. Not just a producer of BIS winning get, his influence is felt further down the line, including the multiple BIS winning grandson Ch Davi of High Ridge Farms.

In 2005 a Ziggy great-grandson, Ch Rightly So Lov'em and Leave'm, obtained his championship with three consecutive five point majors, going BOW all three days, including both the Regional as well as the Roving National Specialty.

More recently another one of Ziggy's grandsons, Ch Rightly So Wallee World, made his presence felt by going WD at the 2009 Devon dog show, then handily finishing with three majors in December, over the Cleveland shows, all from the Bred-by-Exhibitor class.

Being firm believers that new blood lines are essential to any gene pool, Rightly So kennels has always diversified their breeding program. In recent years we have incorporated breeding stock from both the Allright kennel in Germany, as well as the Brickin kennel in England. Among them is Ch Brickin Cut and Run, who made his American show debut by going WD at the 2006 National Specialty. At this time he has 6 champions to his credit. Ch Brickin Country Pursuit, finished undefeated with several Best of Breed wins. Our newest import, Brickin Smart Disguise, is currently being readied for the show ring.

We are pleased to have finished the first Norfolk conformation champion since club separation and are looking forward to many more fun-filled years with this wonderful breed.

## Venerie By Pam Beale

John and I were lucky to have made contact with Joan Read, as she helped us acquire our first Norfolk; and thus began our love affair with Norfolk Terriers. It is hard to believe that it has been almost 20 years since we went to our first ANTA (American Norfolk Terrier Association) match and left with Hester, a bitch puppy, who became a wonderful companion and a great foundation dam. I fell in love with Hester the moment Joan Eckert put her in my lap, and while Hester is gone now our love for the breed remains stronger than ever.

The second lucky event occurred when Trish Lussier invited us to dinner at her house with a group of dog friends that included the widely known handlers Beth Sweigart and Peter Green. Beth agreed to show Hester and help us develop a breeding program that produced Ch. Greenfield's Step to the Rear (Thumper), a son of Ch. Nanfan Culver, who was owned by Jim and Marjorie McTernan. Culver became a wonderful sire, and Thumper was just one of his many contributions to the breed. Thumper in turn produced Ch. Max-Well's Spring Into Action when he was bred to his half -sister, Ch. Max-well's Weather or Not (Notty ), whom Barbara Miller was kind enough to share with us after we had seen and tried to purchase her mother, Max-Well's Whizard of Oz. Both Thumper and Notty were top Norfolk during their show careers. The next dog we were fortunate to acquire was Eng. / Am. Ch. Elve Nick Redthorne at Belleville (Jose), bred by Michael Crawley and owned by Cathy Thompson. Cathy agreed to send Jose to us and own him in partnership with John and me. Jose was everything you could want in a Norfolk-- healthy, hardy and very keen. He was also an outstanding showman and finished 1998 as top Norfolk and second top terrier in the country.

As fortunate as we were in our beginnings, even better things were still in store for us—namely Ch. Cracknor Cause Célèbre, or Coco, who enjoyed a magical show career. She was undefeated in Breed competition and went on to break a phenomenal number of records and create innumerable Firsts for the breed. Her crowning achievement, to quote P.T. Barnum, was conquering “The Greatest Show on Earth” by going Best In Show at Crufts.

Beth and Coco had a wonderful rapport, and it was always a thrill to watch them together in the ring. The other wonderful thing about Coco is that she not only left her mark in the show ring, but she has bred onward. Her remarkable legacy continues through her son, Ch. Cause for Celebration (Dickie), who was top Norfolk in 2006, 2007 and 2008, and top sire for the breed in 2008. Words can never express how wonderful it has been to have the opportunity to co-own such a fabulous dog with her breeder, Elisabeth Matell, and to have seen her shown by Beth and Peter –very special times that we will always treasure.

Looking forward, it is my dearest wish that I will be able to build on this wonderful foundation and continue to breed dogs in partnership with Beth and Elisabeth, as this partnership and their friendship means the world to me.

# Link

## Glenelg By Deborah Pritchard

Glenelg Norfolk actually started in 1973 when I was smitten with a Norwich Terrier at a dinner party. I knew that I had to have one of these dogs as my personal dog, small enough to go everywhere with me, smart enough to be my entertaining companion, and rugged enough to live an active life in the country. A drop-eared Norwich Terrier puppy by Ch Nanfan Nogbad the Bad was found and my life has never been without the breed since. I bred Nora several times, with Mary Baird and Anne Winston advising me. I knew very little about grooming and had no interest in dog shows, but one day I thought it might be fun to visit a nearby dog show, Somerset Hills, with Nora, so I gave her a bath and off we went. One can imagine what she looked like! Only one Norwich Terrier DE person spoke to me and said something nice about my little dog, and that was Jack Simm.

A few years later I met Linda Plummer, who told me that one of my male puppies was show quality to which I answered, "I'm too busy with my family and horses but you can show him if you like!" He ended up with Peter Green and Damara Bolte. Damara showed him at Westminster and 'Tuff' went BOB!

From 1982 to 1996, dog shows were still of no interest to me, but breeding was. A Kings Prevention puppy, Damara, and Ch Nanfan Corricle came to Glenelg and Constance Larrabee became another mentor. I was a little afraid of her, but I learned more about pedigrees, coats and ears. Joan Read came into my life and I bred to Daffran Dusty, Elve's Pure Magic and Magic Marker. Linda and I had tried every possible remedy for problem ears and I was envious of the ear carriage of the Ragus & Elve litters I saw.

In 1990, Wenwagon Beatrice (Triscuit) came to me from Linda. Triscuit was a terrific producer for me, as her full older sister, Wenwagon Friday Flyer, was for the Colemans in California. The dam of five champions, the breeding to CH Reidmar Mercator produced Piacere and Grazie. In 1995, I decided to enter my puppy, Grazie, in a show (still didn't know a thing about grooming) and was told by a respected Norfolk breeder and handler that she was a 'Specials' bitch. Well, I thought, she's special to me too. Still clueless. Then I showed her again, she won, and Kathy Ferris and I finished her quickly. Grazie would win in spite of me and gave me confidence to handle my own dogs. Andrew Kramer's Pia and Grazie together produced 14 champions. When I bred Grazie to CH Allright American Dream twice, four champions were the result. She was the catalyst into the wider dog world for me, leading me into the Earthdog fields (once again, I knew nothing; she sailed through to Master Earthdog). Her daughter, Ch Glenelg Georgie Girl, went BOW at Montgomery from the BBE class. When we had the photo taken, the Judge said to me "Who are you? I don't know you", the best complement my bitch could have had! Her granddaughter, Ch Glenelg Alden, went BOW at Montgomery also.

Genetic diversity for health and temperament is important to me. I study pedigrees and never breed to a stud dog just because he's a top winner unless I've been able to put my hands on him, look in his mouth, and know as much as I can of his family. A bitch that doesn't have a proper scissor bite, and by proper I mean it stays scissor the lifetime of the dog, will not be bred. I wish for every serious breeder three things: a sound foundation bitch with a correct bite, more than one mentor with wide knowledge of the breed and no personal advantage to their advice, and the written standard always in mind.

## Arroyo By Ann and Ed Dum

In 1987, Ed and I began our search for a small dog to replace our old Dachshund that had passed away. We attended dog shows and talked to exhibitors of many different breeds. By 1988 we had narrowed our interest down to the Border, West Highland White and Norfolk Terrier. After a while, we decided that the Norfolk was the breed for us. Little did we know that it would be another year before we would get a Norfolk.

We purchased our first Norfolk from Roger Cutler. She was 9 months old and named Capstone's Just A Love ("Kayla"). She was truly a little love. We had her shown by Bill McFadden and I exhibited her as well. When it came time to breed Kayla, we talked to Taffy McFadden for suggestions. Taffy suggested that we contact Fritz Rumpf. She thought that Ch. Rightly So Original Sin would be a good match for Kayla who was large. We contacted Fritz and he agreed. Kayla needed a few more points. We decided that Fritz would show her at a few shows and get her finished while she was in the east being bred.

Kayla had a litter of three. Much to our amazement, in that first litter was Best of Breed Norwich and Norfolk Terrier Club National Specialty Winner, CH. Arroyo's Wild At Heart ("Willie"). Willie won the breed at Montgomery in 1993. Wow, what a thrill! Fritz was handling Willie for his owners who lived in Arizona. This began my mentorship with Fritz. Fritz taught me how to groom and present a dog. We became close friends. I can never thank Fritz enough for his willingness to mentor me. Fritz started showing one of our favorite dogs, Ch. Arroyo's Keefolk Amador (Amy).

Throughout the years we have exhibited most of our own dogs and many have finished from the Bred by Exhibitor class. Our dogs are the foundation stock for several kennels, including Linda Ball (Keefolk), Randy and Michelle Welcher (Granite Hills), Julie Gleeson (Wisdom's Gate) and Becky Brannan (Vian Caru). Some of our dearest friends have come from the world of Norfolk's and dog showing. We have had wonderful experiences as well as heartaches.

I do consider myself very fortunate in the fact that so many professional handlers, as well as many elite breeders, have offered us help and advice throughout the years. We have been lucky enough to produce our second National Specialty winning Norfolk, who is Ch. Arroyo's Tater Tot ("Tater"). Tater is shown by Eddie & Lesley Boyes, who I consider mentors and close friends.

Tater is among the list of our favorite Norfolk's along with our "Amy". A few of the other dogs that we have loved in Norfolk are (in order of birth-date) Ch. Max-Well's Weatherman, Ch. The Duke Of Copperplate and Ch. Cracknor Cause Celebre.

## **Wisdom's Gate**

**By Julie Gleeson**

I've been showing and training dogs since I was 11 years old. I started in 4-H with my beloved Scottie, progressed to owning and raising Doberman Pinchers (I showed the first Fawn Doberman ever to receive Championship Points in the US), then decided it was time to move to smaller dogs in the early 1980s. At that time I owned several cutting-edge pet stores and was considered an industry leader in creating a breeder-referral service to keep dogs from being sold through pet stores.

I rescued a Cairn Terrier, then went to Golden Gate to meet Cairn breeders in order to buy a show puppy. I never made it past the Norfolk bench. There sat Jessica James Relinque and Kathleen Eimil with the most adorable dogs I had ever seen. Jessica invited me to her home where I met her pack, and the moment they chortled at me, I was sold. She had nothing available, so I began a national search.

My first Norfolk was sent to me in 1986, sight unseen, by Mrs. James Clark, after a required in-person interview. A very young Bill McFadden showed him for me, and Norvik's The Instigator, aka, Rustle, was my very first Champion. He was the very best family pet, and in fact, we credit him for saving our marriage! But that is a whole different story.

When we lost Rustle suddenly to stomach cancer (he was just 12), we were bereft. We turned to Ann and Ed Dum, who promised that as soon as she had something, she would let us have one. We were allowed to buy our Casey, Ch. Arroyo's Red Jet, when he was just a pup, and Ann and Ed mentored me for years in showing and coat care. They took Casey to Montgomery in 2001, and due to a fortunate set of circumstances, I ended up with my dear Annie, Ch. Arroyo's Farolito Fire, to care for while they were gone. Annie settled in and the Dums and I worked out a contract that allowed me to keep her through a breeding agreement. I call her my miracle dog, as she got pregnant the first time we bred her, had 8 puppies total in three litters, and gave me 4 champions, including Yankee, Ch. Wisdom's Gate Let Freedom Ring, CGC. One of her Champion puppies was Ch. Arroyo's Archangel Gabriel, who was WD at Hatboro and BOW at Hatboro 2, the very first time I attended the Montgomery weekend, with me showing and presenting him! Annie contracted Pyometria and had to be spayed, but Yankee carries on her genetics and her gorgeous babies in his puppies.

Wisdom's Gate came into existence with Yankee, as his litter was the first that I was completely responsible for. Annie was bred to Ch. Kinsridge Free N 'Easy. He was a litter of one! The name comes from my consulting work (I am a Wisdom Coach) and refers to a passage in the Book of Wisdom in the Catholic Bible.

Nan Anderson has been instrumental in continuing my education in terriers and the members of the whole national and regional clubs continue to be the best educators I could ever have.

## Australia

### Jotruba

By Elizabeth Hindley

My introduction into the wonderful world of dog showing began with West Highland Terriers, which I enjoyed for over ten years. During this time I was very successful breeding and showing the West Highland White Terriers. Then, in 1982, a dear friend, a very successful Norfolk breeder and Judge, arrived at home with Gypsy because he believed my life would not be complete without a Norfolk. He was right.

Although Gypsy was not the pick of the litter and had 'helicopter' ears, she wormed her way into our hearts. So in 1984, I decided to mate her and used **Craigend Romany Rebel** the son of **Nanfan Sharpshooter**. I used Rebel because he was the first Norfolk to raise the profile of the breed in Australia. From this mating, Gypsy's progeny were successful in the ring and won many In Group and In Show awards.

Now that the breed had truly become part of my life, and because of the relatively limited gene pool in Australia, I felt that I needed to introduce new lines into my breeding program. I did my homework and I looked to the U.K. and introduced the **Nanfan** lines into my kennel. I was lucky enough to import **Nanfan Cactus** from **Nanfan Kennels** in the U.K. He was magnificent and helped me revamp the gene pool and he had an immediate effect. Then **Nanfan Chill Off** arrived and we continued to improve the quality of Norfolks in Australia. Their progeny were getting recognized and seriously considered in the ring again.

Then I imported **Nanfan Calamus** from the U.K. and once again our quality took another leap in the right direction. In Australia **Nanfan Calamus** won multiple in Show awards and was the first Norfolk to attain his Australian Grand Championship title, which is a great achievement. To top it off, in the same year he won the Top Terrier at the British Terrier Club of NSW in 2005.

Again I went back to the U.K. and imported **Brickin Red Diamond** who followed in **Nanfan Calamus'** footsteps being the youngest Norfolk to attain his Australian Grand Championship title and winning Top Terrier at the British Terrier Club of NSW in 2008. Both these dogs have complemented my lines in all the right areas and the progeny from both these dogs are now making their mark winning multiple in Group and in Show awards. In Australia there are not the numbers of Norfolk , but what is here is now of a very high quality.

After my success in the Show ring I then decided to use the experience I gained breeding top winning Norfolk terriers and decided to take up Judging. I gained my Terrier Group license in 2004 and my Toy Group license in 2007.

My judging career so far has taken me to the ANTA specialty in the United States, to New Zealand for the Terrier Club Inc. as well as most states within Australia. In 2007 I enjoyed judging the Terrier group at the Palisades Kennel Club in America and was excited to judge my own breed at the Norfolk National in Canada in May, 2008. This was a great honour. This year I had the great pleasure to judge the Toy Group at Chengdu in China. This certainly took me out of my comfort zone however I loved every minute of it. For me it is always a very great honour to judge dogs and especially my breed.

## Germany

### Allright Dr. Frauke Hinsch

Having been a great dog lover from childhood and growing up with wirehaired Dachshunds, my first Norfolk Terrier came into my life in 1975. I used to ride thoroughbred racehorses at that time and the Norfolks had come with the horses from Newmarket/England and originated from the famous Ickworth kennel. I fell in love with their temperament, "rough" looks, colour and the fact that they were a suitable size to live with students, as I started vet school around the same time.

Norfolks were completely unknown in Germany then and the challenge to breed them arose immediately. I started studying the breed as much as possible, read everything I could find, studied pedigrees, visited many famous breeders in England and later in Scandinavia and the USA trying to learn trimming and handling, as before all I had done was obedience with the Dachsies. The first years were difficult because there was nobody in Germany who could help with the breed. Regular visits to England with well known breeders (Nanfan, Ickworth, Pipridges and others at that time) and the famous photographers Sally and Ron Willbie gave me a great deal of support. Soon, I got to know Joan Read and Barbara Fournier while I was in the USA as an exchange student working in a "future farmers" programme. Especially Joan was a great supporter and made me judge the first time and write for her book. I have great memories of the many visits with her and certainly learned a lot.

Contact with the Cracknors, Guestlings, Ragus, Belleville and Brickins followed and so did many others in different countries. Cracknor Candidate was my first stud dog, International Champion and World Winner. He is behind most of my dogs. He had a fantastic temperament. Later imported stud dogs were Ch. Yarrow's Henley and Ch. Belleville Smart Alec who were both very influential. To mention all those I bred ,the list would be long, but maybe Ch. Allright Hyperion, Ch. Allright Teddy Trouble, Ch. Allright Northern Dancer, Ch. Allright Smart Norman and Ch. Allright Smart Chester and the bitches Ch. Allright Buttons and Ch. Allright Ginger Bread - those are just a few who were multiple or international Champions, World/European winners and BIS winners. Two of my dogs made their championship in Britain (shown by Cathy Thompson, Belleville): Allright Magic Trapper and Allright Smart Sir Byron, and Trapper was also Top Stud dog. In the USA, Ch. Allright Magic Lamp was a BIS winner and quite a few others gained their championship there over the years and did a lot of stud work for different kennels. Worldwide Norfolks from my kennel have participated in many countries at dog shows and helped breeders in their breeding program.

I am a licensed judge for ten different Terrier breeds since 1991 and have been the breed representative for Norfolk Terriers in Germany for over 20 years. Since 1977 - when the prefix Allright was registered with the German Terrier Club - I have bred nearly 200 champions and in 2007 I got the highest award for my work which the German Kennel Club (VDH) hands out (Baron von Gingins medal). Through the Norfolk Terriers I have made friends in many parts of this world and besides the joy of breeding these wonderful dogs, the long-lasting friendships are part of the fun of it!

# A cross the Seas

## Singapore

By Hubert Tan

I got interested in the Norfolk Terrier after viewing the Westminster shows years back. I never got to owning one until I retired most of my Siberian Huskies as they were of age. I started studying the breed intently and my desire got more intense as the months passed. Though I knew it was an uphill task for me ,as judges in Asia might not be familiar with the breed, I felt the need to pursue my goal.

Though I started treading in murky waters, I managed to make a study on the lines of this breed, and after a few "no replies" and "cold" correspondences, I had a breakthrough from Barbara Miller who kindly offered me a dog called Slick (but not until after a thorough explanation of myself and a few personal calls to convince her that I am a serious show home, one who loves my dogs and would ensure only the best for them). You can imagine the joy I felt when I received Slick to my home. Interest in Slick grew as I had many doggie friends who would come over to play with him and he never disappointed with his bubbly self. He was more of a people's dog and would long for the human touch.

I do admit, due to my lack of experience and bad advice, I messed his coat big time and had to wait for what seems an "eternity " for the coat to come back. Barbara showed that she was a true mentor through her advice to me and was patient with me when I threw questions at her to help me resolve problems. Well the rest is history. Slick finally won a few group 1,2 ,3 and was recently best yearling in show. He was always the heart throb in the ring with his attitude and he would captivate the judges and the crowd attention.

My personal thanks to Barbara Miller and Susan Kipp for this wonderful boy. We hope that Slick will one day do us proud by breaking the kennel club history records with the highest accolade of a Best in Show. Even if he doesn't, Slick will always be the family's BIS.

# Canada

## Dralion By Linda Dowdle

We had always been a 'big dog' family. Our first encounter with a Norfolk Terrier was during our initial dog show experience. We went in search of the perfect companion to fill the void after our 17-year-old, very large, rescue dog passed on and our sons went off to college. My love of scruffy teddy bears and the need to nurture drew me to these loveable, playful, fuzzy-faced clowns. My husband Peter's need to find a 'real' dog that a man would not be embarrassed to walk was also fulfilled by these sturdy, feisty, game little terriers with big dog attitudes. We were both so smitten at first sight, never imagining a small dog could have ever won us over so completely!

We will be forever grateful to Clive and Mary Davies for allowing Cracker to come and live with us as a foster. Through their guidance and support, we not only acquired an affectionate, fun-loving pet, but we discovered a new passion, the show ring. We continued to show Cracker ourselves and, despite our total inexperience and her uncooperative ears, got her Canadian Championship. We were hooked! Through our efforts in the conformation ring we were lucky enough to meet Joan Eckert, Wayne Palmer and Tony Gabrielli who sold us our first quality Norfolk puppies while providing invaluable mentorship in the breed. We learned the importance of improving and enhancing the breed in health and temperament as well as conformation.

We eventually co-owned Cracker and bred her to The Duke of Copperplate. Our first home-bred puppy was Dralion's Contessa of Cortaillod. We were so proud of this beautiful, sound, vivacious little bitch and owner-handled her to her Championship. From the first, it was obvious that Tessa inherited her sire's outstanding showmanship ability. At 7 months, she was Best Puppy at our Specialty and the first Norfolk puppy to get a Best Puppy in Show in Canada. She went on to receive a Group 1 at Puppy of the year. Tessa went reserve at Devon at 8 months and finished her Championship in the US at 10 months of age. She produced US/Can CH Dralion's Fire Within, US/Can CH Dralion's Dare to Soar, and US/Can CH Dralion's Beckoning Obsession, all of whom have produced many champions of their own. Tessa helped us discover how intelligent and versatile Norfolk could be when we also took our beloved companion to obedience, agility, flat racing, lure coursing and go-to-ground. Tessa is truly an all-around little terrier!

As President of the Norfolk Terrier Club of Canada and Editor of the quarterly Norfolk Natter newsletter, I have worked alongside my Board to promote the Norfolk breed in Canada. We hold an annual National Specialty, have had many Regional Specialties and enjoy Fun Days each year. Only 50-75 Norfolk are born per year in Canada. There are four breeders that actively show in conformation in Ontario and three in Western Canada. Competition is therefore quite limited unless our American cousins enter our shows and support our Specialties. All Norfolk enthusiasts are encouraged to participate north of the border!

**Souyen,  
By Patti Paquette**

Souyen was established thirty years ago when I began to breed Shih Tzu. While I was exhibiting my Shih Tzu in the States about 16 years ago, I would often watch the groups and one particular day I was viewing the Terrier Group. This was my first introduction to the Norfolk Terrier. I could not take my eyes off this gorgeous red dog with a face to-die-for. I had never seen this breed before. Surprise, surprise, it was a Norfolk Terrier, Ch. Nanfan Crunch. Then the questions started to flow: "Why have I not seen them in Canada?"; "What is their temperament like?"; "How big do they grow?"; "Do they get along with other breeds?"; "Is there a lot of grooming?".

My sister-in-law, Wendy Paquette, informed me that Mary and Clive Davies from the Toronto area were importing a bitch from the United States and we could possibly see the availability of a puppy down the road. Out of Mary and Clive's first litter was an extra special female that we co-owned, Ch. Cortaillod Cricket of Souyen. I still remember the day Wendy brought this little bundle of joy home for me. From that moment I have been hooked.

Learning how to groom the Norfolk taught me a lot about the breed. With the help of Mary, Sharon Kleim and my brother-in-law, Richard Paquette, I learned how to groom the new addition to the family. I was delighted by how the Shih Tzu and the Norfolk interacted with one another. I am a strong believer that all dogs that live under one roof have to get along.

As time went on, I bred my first Norfolk, Am.Can.Ch. Souyen's Waiting Game, 'Jake'. Jake was our first American Champion shown by our niece and professional handler Jody Paquette. Over the years, Jake was very helpful while whelping litters. As soon as one of the females started labour, Jake was always close by, ready to spot the first puppy and help clean the puppy if need be. Jake had to put his lick of approval. He would sit and guard that whelping box for hours. Sadly, we just lost Jake on March 17, 2009; he was nearly 12 years old. He was a great dog that can never be replaced.

I was very fortunate to be introduced to Marjorie & Jim McTernan on another trip state-side. At that time, I was looking for new bloodlines to be introduced into my breeding program. Jim and Marjorie were generous enough to allow me to bring home Am.Ch. Copperplate the Artful Dodger to be shown in Canada and to be bred to some of my females. Within no time, Dodger finished with group placements. After Dodger went back home, another male came to visit. Am.Ch. Capricorns One Potato. 'Spud' visited the girls and also during his stay became number one Norfolk Terrier in Canada and AOM at Montgomery. This was a great opportunity for me and I do thank everyone with all my heart. Both these dogs played a significant role within our breeding program.

The dogs are definitely part of the family. When you breed and show for 30 years you need a lot of support. My husband Mark and daughter Sarah are very supportive and are extremely helpful at home and at the shows. The first Norfolk my daughter bred is Ch. Souyen's Shoot em' Back. Shooter was #1 Norfolk Terrier in Canada with three Puppy in Shows. I believe he still holds the record for most Puppy in Shows won by a Norfolk Terrier. Shooter was groomed and shown almost completely by Sarah. She holds great pride with this boy. Now Shooter enjoys his days as a house pet, swimming every chance he can get. It has been a joint effort for us to reach the highs that we have been fortunate to achieve. Norfolk Terriers have been an exciting addition to our lives and they never fail to amaze and amuse us.

A N arfdkT errier may be  
more of a challenge because they  
have ideas of their own.

*Illustrated Standard, 2009*

A nd so, too, do our new dub  
members have ideas. Those 'ideas of  
our own' have made us a first-class,  
single breed dub in just one year.

# Constitutional Process

## The Making of the Norfolk Terrier Club Constitution and By-Laws

Dr. Gerald Mager

In the early fall of 2008, Barbara Miller asked me to chair the Constitution and By-Laws Committee of the newly organized Norfolk Terrier Club. In college and graduate school I studied constitutional history extensively, so I understood the purposes and requirements for a constitution. Some of the principles are transferable even for a breed club.

I began with a careful reading of the constitution and by-laws that had guided the Norwich and Norfolk Terrier Club, as well as the constitutions and by-laws of half a dozen other breed clubs. It was readily apparent that the constitution of the old club (little more than a one page document) was written for another time; some of it was anachronistic; it needed to be brought into the twenty-first century of dog-club life. Hence I drafted an entirely new constitution, keeping it to one page in length.

Next I made an enlarged copy of the NNTC by-laws, scrutinized every sentence and began making notations in the document for the Board to consider. I identified all the words that had to be changed or deleted for the new club (mostly references to Norwich). I pointed out words, phrases or sentences that I thought might be changed. For example, I questioned the need for a small club to have two vice presidents and both a recording secretary and a corresponding secretary, and I suggested that the Board carefully consider whether it wanted to put term limits on any officer or board members. I found sections of those old by-laws that needed to be completely rewritten, so I drafted suggested revisions for the articles covering voting procedures, duties of the officers, all sections of the article on committees, and a new article on parliamentary authority. I also concluded that much of the verbiage in the by-laws is required for approval by the AKC, so, for example, there was almost no leeway to change the article on discipline.

I sent my marked up copy of the NNTC by-laws and my drafts of the new constitution and by-law proposals to the NTC Board for their consideration. The Board members in Long Beach at the time of the AKC Eukanuba show in December, 2008, invited me to meet with them. They accepted the proposed constitution and then went through the by-law document, carefully considered each suggested emendation, and accepted most of them.

Next the draft Constitution and By-Laws of the NTC were sent for review to the AKC, which required additions to the by-laws in order to obviate problems that other member clubs had encountered. Finally, each member of the Norfolk Terrier Club received a copy of the proposed Constitution and By-Laws and voted approval of that document overwhelmingly.

# M embershipN ews

## **From the Membership Desk** **By Jeff Partington, Membership Chair**

It's been a good first year for membership. The club started out our first year with just over 200 members. Throughout the year, 27 new applications for membership were submitted and approved by the board, increasing our membership by 13%. New to the NTC, is an associate membership designed for new and first time Norfolk owners. We welcomed 16 new associate members so far this year.

New members are the lifeblood of any club, so I would encourage you to ask your Norfolk friends and competitors if they are members and if not, ask them to consider supporting their breed by joining. For those new to the breed, the club created a non-voting associate membership, allowing new Norfolk owners to join and receive all the benefits of membership with just one sponsor, rather than the usual two. They can remain an associate member for up to two years and then must apply for full membership.

We would encourage all our breeder members to buy their new owners an associate membership, whether the Norfolk is being sold for show or performance, or as a companion. Our personal experience has been the more our new owners learn about their Norfolks, the more they want to do with them. Three of our owners have come to Earthdog tests and are now competing or plan to when their dogs are old enough. Another comes to shows to help us out and has even taken dogs into the ring for us. She is so hooked, she is considering buying a show dog from us. It just goes to show that you never know where our future competitors will come from.

To simplify the application process, a separate form for associate membership was recently approved by the board and will be posted on the website along with the original application. This new form makes it easier for you to submit the application for your new owners.

## **Norfolk Terrier Health, 2009**

**By Carol Falk**

Having served as Health Chairman for the Norwich and Norfolk Terrier Club for 12 years, I am delighted to have the opportunity to work for and represent one breed. Although our Norfolk is a hardy little dog, we do have some serious health issues, and in 2009 we have worked towards better understanding these issues with the goal of reducing their incidence in the breed.

In 2007 we became a “CHIC breed”. CHIC stands for the “Canine Health INFORMATION Center” and was established by the AKC Canine Health Foundation (CHF) in conjunction with the Orthopedic Foundation for Animals (OFA). Each national club is responsible for determining the required (and/or recommended) health concerns for which breeding stock should be screened. In Norfolks, we require a dog to have a CERF eye exam, an OFA patella or knee evaluation, and an ultrasound cardiac evaluation performed by a board certified cardiologist. We also recommend an OFA or PennHIP hip evaluation as well as ichthyosis screening. Cardiac and CERF clearances should be updated periodically as the dog matures.

Although mitral valve disease (MVD) is the most common heart defect in small breed dogs, the Norfolk appears to have more than its share of this often-fatal problem. Since 2001, we have had researchers looking at MVD in the Norfolk, however, our efforts have, for various reasons, become stalled. In October of this year, the CHF approved a \$26,000 grant to study MVD in the Norfolk. Most of the funds for this study will be drawn from the “Friends of Norfolk Terrier Donor Advised Fund” a separate fund managed by CHF. In addition, the NTC board has approved the allocation of \$4000 from the NTC donor advised fund to support this project.

The MVD study will be spear-headed by Mark Oyama, DVM ACVIM/Cardiology, from the University of Pennsylvania School of Veterinary Medicine. Dr. Oyama, a speaker at the 2009 Canine Health Conference, was the recipient of the coveted CHF Dr. Asa Mays award for excellence in research. The study will also include highly regarded researchers from several other veterinary schools. The grant proposes to examine the following characteristics of MVD:

- Pedigree analysis for mode of inheritance
- DNA collection and banking
- Cardiac blood-based biomarkers of heart disease (BNP, ANP, troponin)
- Markers of inflammation (C reactive protein)
- Serotonin signaling (serum serotonin levels)
- Echocardiographic valve measurements
- Dietary history
- Nutritional plasma amino acid profile.

As currently designed, this will be one of the most comprehensive characterizations of MVD in a single breed! The screenings will most likely take place at Tufts University in Massachusetts and the University of Pennsylvania in Philadelphia. How the initial 50 dogs needed for the study will be selected has yet to be determined. If things go well, and with additional funding, we will also be able to look at candidate genes for MVD rather than just banking the DNA for future use. By the end of 2010 I am hopeful that we will have some initial findings to report.

In addition to MVD, both OFA and PennHIP recognize hip dysplasia as a problem in our breed. The OFA database for hips is what we call a semi-open registry. This means that when you submit a radiograph of your dog's hips to OFA for evaluation, it will automatically become part of the database for Norfolk Terriers. However, unless you check the box on the OFA form when submitting your radiographs allowing the results to be made public, your dog's name will remain private. When you submit your radiograph, you do not know how your dog's hips will be graded. This is different from the patellae, cardiac, and eye registry, as you already know your dog's status before deciding to have it listed in the database. As breeders, are we submitting our dog's abnormal hip results? For many, I suspect, the answer is unfortunately no.

By searching the OFA database, one can see that of the 153 breeds submitting at least 100 radiographs for hip evaluation, the Norfolk is listed as having the **16<sup>th</sup> worst** hips. An alarming 33% of the 218 radiographs submitted to OFA were graded dysplastic, with none having been rated as excellent. This means that 72 Norfolks were graded dysplastic by OFA; however, when I search the OFA database for Norfolks, I can find only 15 that are listed as such. In other words, there are 57 Norfolks graded as dysplastic whose owners have chosen not to share these results. **By not sharing these results, we are defeating the purpose of CHIC. The "I" in CHIC stands for INFORMATION, and many breeders, although they are obviously performing genetic tests, are still unwilling to share abnormal results.**

I feel we have made good progress in the past 15 years in educating ourselves about our dogs' health. We have admitted that we have problems, and we have begun to test for and address these problems. As someone who has been breeding dogs for 35 years, I understand how difficult it is for many of us to admit that there may be a health issue in our line. Please remember that ALL dogs have or carry genes for health problems and that you are not a bad breeder, or a bad person, and you certainly do not have bad dogs by acknowledging these issues. Through the sharing of ALL information, we can better learn how to breed around many of our health concerns. In 2010 I would like to see us continue to have our dogs "CHICed". I would like to see a hip evaluation added as a CHIC requirement, and I would like to see more of us step up to the plate by making **ALL of our dogs test results public.**

## The Norfolk Terrier Web Site By Larry Hottot

The Norfolk Terrier Website can be accessed by typing [www.norfolkterrierclub.org](http://www.norfolkterrierclub.org) into your web browser, or type Norfolk Terrier in the “google” search box.

To understand today's Norfolk Terrier web site, there was an enormous amount of information contained in the previously combined Norwich and Norfolk Terrier Club website that needed to be screened. The first order was to download the breed specific information to a different location so that each club could work with their existing breed-unique information. Next, the goal was to review the content of the previous web site and select those items for inclusion into the new web site. Once I had the previous information collected, it was time to start designing the site for functionality and content, with the Home page being the center point. The Norfolk Terrier Club web service provider is IPower. The NTC pays an annual fee to IPower to support our web site on their server and for ownership of the domain name “Norfolk Terrier Club. org”.

I would like to thank Mr. Jim Trethewey of Alfirin Technologies, who was a tremendous help with the Pedigree database portion of the web site. A special thank you to Dr. Andrew Kramer for compiling the monthly records of Titles from the American Kennel Club (AKC) and who also provides that information for inclusion on the web site. Andrew manages and updates the Norfolk Terrier Breed information for the On-Line Pedigree database. The NTC Board has provided many ideas and specific information for inclusion to the web site making the site more robust. NTC Committee Chairs have been critical in the formulation of various portions of the web site. The Stud and Kennel Listings would not be possible without the tremendous assistance of Ann Thomas. Without her assistance and dedication, it would not have been possible to have such a comprehensive listing of the Norfolk Terrier Stud Dogs and club member's Kennel listing.

Included on the NTC web site are the written standard for the Norfolk Terrier breed, a listing of Board Members, Committees and Chairperson(s) with contact information. I have included selected Frequently Asked Questions (FAQ) regarding the Norfolk Terrier breed and some general information to help prospective dog owners decide if a Norfolk Terrier is the right breed of choice. Information is available on Specialty shows, both the National and Regional Specialties, and other events having importance to Norfolk Terrier Club membership. Included on the web site are the NTC Code of Ethics and the NTC Constitution with the ability to download these and other club forms to include ads, membership, etc. located under the “Forms” tab.

**“Coming Soon”** will be a “Members Only” section that will be a user ID/password-protected area for club members to gather club specific information and materials. Also a “Meet the Breed” section for member's photos and narratives for Show/Earth/Agility dogs and their accomplishments is planned for 2010. We are considering a picture gallery of club events and special moments to be available also in 2010 and a means to post show results quickly for the Norfolk Terrier Breed. Initially this will be a concerted effort to list results for the National and Regional Specialties. While this will be unofficial, members would be able to assist with this challenge. More to follow on all these efforts in near future.

About the Webmaster: I work for the Department of Defense, Office of the Under Secretary of Defense (Comptroller) in the Pentagon as a Financial Management Analyst, where I manage the daily operational budget and facility needs of the organization. Since July of 2009, I have been deployed to Joint Base Balad, Iraq, located approximately 60 miles northwest of Baghdad. I am particularly impressed with the efforts of the Service Dogs here in Iraq and Afghanistan, who protect and defend soldiers, sailors, Airmen, and their handlers dedication to training them.

I encourage members and visitors to the site to provide any input and suggestions to improve the site. I have placed a link on the site to contact the webmaster or you can send email directly to me at [HOTTOTL@cox.net](mailto:HOTTOTL@cox.net). Even while I am deployed, I can access this email address and I respond to inquiries as soon as possible. Please visit the site often as this is an ever-changing process and tool. I would like to extend my gratitude to all who have provided thoughts, ideas, and suggestions for the web site. My sincere appreciation to Barbara Miller who has provided both inspiration and encouragement in helping develop and build a website that is useful and a testament to the Norfolk Terrier Breed.

**Editor's Report**  
**Norfolk Notes, News and Annual**  
**By Julie Gleeson**

What a joy it has been to be the Editor of the new Norfolk Notes on-line newsletter as well as the hard copy News and the Annual. I've always wanted to try my hand at a newsletter, and it is even more fun than I thought it would be!

We are so lucky to have Marjorie McTiernan, who had the original idea, and Barbara Miller, who is terrific at setting a vision and letting people play that vision out. Barbara and I brainstormed our vision for the electronic newsletter, then I designed it and our first copy was born. With the help of many club members who have sent ideas, pictures and recommendations, the on-line Norfolk Notes is a huge accomplishment for such a young club, in fact, for any club. We have received congratulations from club members, judges and others who also write on-line newsletters. The Notes go out to approximately 300 people, and we are currently working on the fifth edition, to go out in mid-February.

The hard copy News was also a huge success. Due to budget constraints, it was limited to just 12 pages, but what beautiful pages they were! We had a color cover by Jack De Witt, as well as a color back-cover ad, taken by Nan Anderson of Tenterra Norfolk. This was printed by Lorrie Kinney and contains historical information regarding division and show results. We hope to have this printed at least once per year in the spring, with the Annual to be the hard copy Fall or end-of-year edition.

I wish to thank Barbara Miller for asking the impossible and making sure I was successful at it. And I wish to thank the entire club for their generous spirit and praise. I continue to love bringing new and touching things to all of you.

# Rescue

## 2009: The Year in Rescue Sue Ely, Rescue Chair for Norfolk Terriers

When the NNTC divided into the Norfolk Club and the Norwich Club, it divided a small club (by AKC standards) into two smaller clubs. That division, as far as Rescue was concerned, meant that the Rescue Committees of the new clubs would have fewer members to help with the unending work of Rescue, as well as fewer people in either club to visit pounds and shelters in the various and often far-flung geographical areas where Norwich and Norfolk Terriers, purebred or mixed, seem to show up.

For two months or so after division, I carefully separated out the Norwich emails that found their way to my computers – emails from folks who were inquiring about adoption as well as those from services such as Petfinder who thought they might have a Norfolk or a Norwich mix. I would send all the Norwich entries to Dana Esquibel, Rescue Chair of the Norwich Club, and handle all the Norfolk ones myself. If someone wanted either breed equally, I would respond and then send the email on to Dana, who would also respond. Division seemed, as best it could, to have been achieved at the level of Rescue.

As efficiently as that system handled division of the mail, however, there was one crucial element, vital to Rescue, which constituted a problem: ***often there was no breed-specific club member to go and check on a dog or facilitate a rescue.*** In the next few months, Dana and I began to share resources in CA, in FL, in SC and CT. Of course, there were also the well-established Terrier Rescue organizations to call on, but sometimes Dana would know someone who could look at a dog here, or I would know someone who could help with transportation there. Inevitably, the two rescue operations collided with the happy consequence that two Norfolk owners in Florida rescued and fostered a Norwich whose owners had died. The dog now has a wonderful home thanks to their efforts and care. In this case, our support networks joined forces for the good of both breeds, despite division!

Rescue is a matter of both geography and demography. However possible it is for telecommunication to put the photo of a dog in CA on my computer screen in NJ, or a dog in FL on Dana's screen in CA, the issue of who is on site to identify, to help, to foster, to follow up is not always solved without the generous cooperation of both Norwich and Norfolk owners who have risen to the occasion and helped. Today's emails have alerted me to a dog in ID and another in CA. I will go home from work to make some calls, confident that I have the support of more folks than I might have had if only Norfolk people could help rescue possible Norfolks in trouble.

I know we are two separate breeds with two separate clubs, but, as e.e.cummings said about marriage, "one's not half of two/ Its two are halves of one." He might well have been talking about the rescue of Norfolk and Norwich Terriers. As this Annual celebrates the first year of a new club, it also should celebrate the historical cooperation that makes Rescue a success for both breeds.

# Legislation

## From the Legislative Front By Jeff Partington

This is my first report on the legislative dog front for our membership. I have been a member and Board member of the Colorado Federation of Dog Clubs for the last three years. Others, who started the Colorado Federation of Dog Clubs, have been working hard since the 1990's to get us where we are today. We have a fellow dog-person, who is also an attorney and lobbyist, who has been our lobbyist for the past several years. Before that, we were lucky to have a dedicated dog-person, Linda Hart, who made it her mission to go down to the capitol on a regular basis and to show up when questionable bills were in committee. I have a ways to go to be as knowledgeable and well-spoken as she.

Currently, we have 49 clubs as members and we are always reaching out for more. No club is too small to be included. We have lowered or waived some dues so as to be sure to include as many clubs and their members in what we do. While we need the dues to pay the lobbyist, it is really the "clout" of listing all of the clubs (i.e. people), that we, as a Federation, represent, that carries weight with the legislators.

Presently, I am President of the Federation, as our long-time, esteemed President, Klaus Anslem, has moved to Virginia. As Vice President I will fill out his term, at which time I will be taking over the job of Treasurer. Each member Club appoints a delegate to the Federation, who is to act as a liaison between the Federation and their club. With all of the dog-people who are members of their local and national clubs as involved in their clubs in other ways, it is not surprising that we have very few delegates attending our meetings. We do have a website, but have to be careful to not put anything out that could be used by animal rights groups.

While our mission is primarily to address laws affecting the entire state, we have found that we are often in demand to address the battles at every level. When counties, cities and other governing bodies decide they need restrictive laws and ordinances, we try to go in to educate and head off bad laws that are always very hard to change once in place.

I want to impress on every one of you that you are most vulnerable to what is going on in your own city, town, and county. Most state laws are usually less restrictive than local laws. Local laws tend to be put into place with little, or no, notice to the residents until it is a done deal. Therefore, it is important that all of us pay attention to the agendas of our local area. Get to know council members and their background. Sometimes, you can request to get an email of upcoming meeting agendas. When a controversial ordinance or law is being considered, be sure to get as many local people of like-minded thinking to come to the meeting and present reasoned, articulate and considerate testimony. We do not want radicals yelling or shouting.

### ON THE NATIONAL FRONT (2009)

1. New Orleans City Council: A mandatory spay/neuter ordinance is under consideration which would require all dogs to be sterilized by six months of age or force their owners to purchase a costly breeder permit. This was to be voted on October 29th, then November 5, and the last I heard it will be voted on November 18th.
2. Las Vegas City Council: A Mandatory Spay/Neuter Ordinance was returned to the City Council for vote, to be heard November 18th. This ordinance requires that all dogs and cats over the age of 4 months must be spayed or neutered unless the owner qualifies for one of five exemptions: (1) holds a valid dog fancier, cat fancier, breeder or professional animal-handler permit; (2) the dog is used by a law enforcement agency as a law enforcement dog; (3) the dog is used by a search and rescue agency for search and rescue activities (note that many search and rescue dogs are privately owned and would not be exempt under the current proposal);

(4) the dog is a service animal such as a guide animal, hearing animal, assistance animal, seizure alert animal or social/therapy animal; (5) the dog is being used by a pound, shelter, humane society or similar organization, whether public or private, the principal purpose of which is securing the adoption of dogs or cats, provided that such organization has a policy and rules requiring the spaying or neutering of all dogs and cats placed for adoption. *ALL* dogs or cats that have not been spayed/neutered as required will be forfeited and may be given to the local shelter for adoption! Fines for violation: \$250 for the first offense, \$500 for the second, and \$1000 for the third offense (the fine is reduced by 80% if the animal is sterilized within 30 days.)

This is not the full ordinance, which can be accessed at <http://www.akc.org/news/index>.

3. Johnson City Council, Jackson, TN: A new animal control ordinance, which will require all cats and dogs to be sterilized unless the owner obtains a special permit, was to be introduced at the Johnson City Council meeting November 3, 2009. A final draft will NOT be made available to the public, so much of the specifics remain unclear.

## VICTORIES

1. United States District Court Judge Charles R. Simpson, III, of the Western District of Kentucky issued his decision in the case of the *Louisville Kennel club, Inc. v. Louisville/Jefferson County Metro Government*. This was a significant victory for the Louisville Kennel club and the key rulings may prove to be of great importance for dog owners nationwide.

Judge Simpson first held that there was **no rational basis why owners of unaltered dogs should be treated differently than the owners of altered dogs**. Second, the judge held that Louisville's seizure bond requirement was an unconstitutional violation of procedural due process rules. This would have resulted in the forfeiture of animals if they were not able to pay for the bond regardless of whether or not they were later determined to be innocent. This followed another court's earlier decision that recognized that dogs are personal property.

2. California Governor Arnold Schwarzenegger vetoed Assembly Bill 241, which would have prohibited any person or entity from having 50 or more intact dogs or cats. "I support measures designed to prevent animal cruelty and that punish persons engaged in the abuse of animals. However, this measure simply goes too far in an attempt to address the serious problem of puppy mills. An arbitrary cap on the number of animals any entity can possess throughout the state will not end unlawful, inhumane breeding practices. Instead, this measure has the potential to criminalize the lawful activities of reputable breeders, pet stores, kennels and charitable organizations engaged in raising service and assistance dogs".

## ONGOING AND DANGEROUS

**CALIFORNIA:** California State Senator Dean Florez, author of the spay/neuter bill that Governor Schwarzenegger vetoed, is running for Lieutenant Governor in 2010 and is NOT a friend to pets and their owners with his Senate Bill 250, which mandates pet sterilization, but also wants to FOREVER CHANGE PET OWNERSHIP in California, and perhaps the United States, by adding the term "**custodian**" to the Food and Agricultural Code. The far-reaching implications are that this would reduce the legal status and value of dogs and cats and restricts the rights of owners, veterinarians and government agencies to protect and care for animals.

HSUS (Humane Society of the United States) has named Senator Dean Florez, Legislator of the Year in California. They also announced the formation of an HSUS-Legislative Fund to support statewide candidates who support their issues and oppose those who do not. PETA has teamed up with HSUS to strip away the rights of pet owners. The California legislature convenes after the first of the year. We must all fight this.

# Meet The Breeds Javits Center, N Y

**By: Barbara Miller**

We began working on the design for our Meet the Breeds booth held October 17th and 18<sup>th</sup>, 2009, at the Javits Center, New York City, months before the actual event. Initially, I wanted to build the façade of an English cottage; thatched roof and all. NTC board member, Pam Beale, suggested we do a backdrop of Nanfan breeder, the late Joy Taylor's cottage, as I had dozens of photos to work with. The cottage is basically white with a tile roof and I was looking for something a bit more English, as we think of it here in the States. Looking back in my albums, I found a thirty-year-old photo taken of a cottage street in the Cotswolds. I sent the photo to the master himself, Robert Lachman. He worked on enlarging the photo (which I might add was no simple task), as we needed it blown up to ten by ten feet. (Mind you, at the same time, Robert was working on the design of our club medallions and lapel pins). Once he was able to rid the initial photo blow up of those nasty little dots he then contacted a woman in China to complete the project. That put me into a tail spin as I felt we'd never see the photo again. Robert held his cool, and even though he speaks no Chinese and she no English, within weeks the finished, hand-painted backdrop arrived on the Lachman's doorstep, all rolled up in a mailing tube. Bless them for hanging it up in their living room, photographing it and emailing it to me. Wow!! "Order another one," I said.

Henrietta Lachman took over inviting club members from the tri-state area to participate in the event. She is a heck of an organizer and tapped top notch members for their appearance, Norfolk in hand, both days. Thanks must go to Judith Felton, Jack Simm, Linda Federici and Jayne Dubin for supplying their knowledge and Norfolks. Jack DeWitt was on hand taking his fabulous photos. I asked Beth Sweigart to attend with CoCo, but she and Peter were heading to Italy. Twelve year old CoCo arrived with assistants Leticia and Sara.

Gina DiNardo was the liaison between the breed clubs, in our case Henrietta Lachman, and the AKC. She assured us we would receive a financial lunch allowance as well as a stipend for the set up of our booth. I supplied the lunch both days and the Lachmans supplied the necessary tools needed for setting up the booth; therefore, monies received from AKC were placed in the health fund of the NTC. Friday was set-up day and it was a pleasure watching Robert at work. He set the backdrops up as if he were working on a movie set. Henrietta fetched me at the entrance to the Javits Center as I supplied the potted mums and antique garden table and chair and she had the dolly. Our booth was completed in record time, much to our delight. Needless to say, with the banner in place, and the new cloth on the table, stepping back the three of us felt it was a job well done. They headed back to Connecticut and I left to do some New York City shopping.

Dennis Sprung, president of the American Kennel Club, is the man responsible for this huge undertaking. It was he who managed to convince the Cat Fanciers Association to collaborate with AKC on this stand-alone event. It was Mr. Sprung who contacted legislatures in the tri-state area to become Honorary Chairs of the event, many of whom attended with their families. What a great way to ward off anti-dog legislation.

Numerous staff members of AKC were in attendance, each with a job to do. In order to experience the enormity of this event you had to be there. There was an excitement in the air as the Javits Center expected spectators numbering between 20,000 to 30,000. CoCo took part in the mock dog show, Sue Ely arrived in time to participate in the AKC go to ground demonstration and Sassy Joiris was busy in the Agility ring. Every breed club outdid themselves in setting up their booth to represent the background of their breed. We definitely thought our booth should win the award offered by the AKC for the Best Booth, but the Shih Tzus won for their elegant arrangement of a black cloth backdrop and huge red fans.

The Black Russian Terrier booth took my breath away. Breeds participated in the event that I never heard of, so it was interesting speaking with those breeders and gaining some knowledge. That's what the AKC Meet the Breeds was all about, spectators talking to breeders, experiencing the demonstrations offered by AKC, and being a part of the energy of this incredible event.

The spectators came in droves, pushing baby strollers, children in hand; and a few kids forging ahead to pet a dog. PETA, eat your heart out because everyone in attendance had a wonderful time. One would hope there are plans for the AKC to continue this type of stand-alone event in other parts of the country. The beauty of the event was that all breeders had the time to answer, questions put to them by the spectators. Our own booth met people from not only New York City but Long Island, Pennsylvania, Connecticut, all parts of Westchester and Vermont. A young woman stopped at the booth exclaiming our backdrop was her cottage or at least the one she and her mother occupied when she was a young girl living in England. Henrietta and I were amazed, so I told her the story of how the backdrop came to be. It was an exhilarating experience for those of us who took part in the event and one we hope to do again.

*The Norfolk Terrier Club  
of Northern California*

Invites you to join us in sunny California at our

**Specialty Show**

**Friday, April 16, 2010**

The Norfolk Terrier Club of Northern California Specialty and Sweepstakes Show will be held indoors, with a lovely club luncheon and awards ceremony following judging.

*This show will be held in conjunction with the NCTA Shows at Cal-Expo Thursday and Friday, and the Sacramento Kennel Club Shows on Saturday and Sunday. There should be majors all four days!*

Held in conjunction with the 2010 NCTA Terrier Specialty (April 15 & 16) and Sacramento Kennel Club All Breed Shows (April 17 & 18)

Judges: April 15, (NCTA) Mr. Jay Richardson, Breed  
April 16, (Regional Specialty) Mr. Frederick R. Stephens  
Ms. Freddie Jackson, Sweepstakes

Close proximity to San Francisco, Napa Valley Wine Country, Lake Tahoe, Gold Country and about 3 hours from Yosemite National Park. Come show, stay and play!

# MAX-WELL

norfolk terriers

Since the beginning of AKC recognition of the breed in 1979, Max-Well has been consistent producer of top winning Norfolk Terriers in America. The Max-Well prefix was on the first Norfolk Terrier Champion of record in the United States. Max-Well's O'Henry. To date, Max-Well has produced over 100 Norfolk Terrier champions including 10 Best In Show winners, winning over 120 total Best In Shows. Awarded 2007 American Kennel Club Breeder of the year and nominated 2009 Dogs in Review Breeder of the year. We are looking forward to the next generation of Max-Well.

# Pepe

Regency's Alpha Centurion

*American, Mexican,  
International Champion*

Size:

CH Max-Well's Weatherman

Dam:

CH Abbedale Sweet Pea's Regency

Born 11/29/1994

Died 3/16/2009

The first home bred champion  
to Regency Norfolks.

He was my best friend, an ambassador for the Bluebonnet NNTC Club, greeter to all my clients at the office , and my constant companion all his life. He taught many a Regency's puppy how to go to ground and hated those rats. Though a male, Pepe loved the many Norfolk litters that he helped raise with patience and love.

Devoted friend and much loved pet. Pepe never knew an enemy. He will always be remembered and will remain with me always in my heart.

*Illustrated Standard, 2009*

*With special thanks to Laurie-Rossi Sherick for this photo*

# Working Terriers

**By Peggy Metcalf,  
Flurries Norfolk Terriers**

***ter-ri-er n. any of several breeds of usu. small dogs, used orig. to pursue game and drive it out of its hole or burrow.***

*Webster's Universal College Dictionary*

The Norfolk Terrier has become a serious competitor at earthdog events across the country, especially in the east. At a recent trial in Pennsylvania, there were eleven Norfolks holding Master Earthdog titles! That says something about the willingness of this breed to put its natural instincts to work and about the effort of the owners to give their dogs the chance to shine. 2008 saw Norfolks earn 5 Junior Earthdog titles, 5 Senior Earthdog titles and 5 Master Earthdog titles. Those numbers are outstanding! As of the end of October 2009, Norfolks had earned 4 JE titles, 3 SE titles and 5 ME titles. These numbers again illustrate the interest owners have in continuing to challenge their dogs to keep their instinct to hunt alive and well.

In the early days of the breed, the Norfolk (Norwich D.E. back then) were used to hunt and dispatch vermin (mostly mice and rats) from local villages and farms; they were later used on hunts to bolt various critters from their burrows. Most often, larger hunt dogs actually dispatched the quarry as the Norfolk went "to ground" and drove the quarry out to them. As these sturdy little dogs rose in popularity, they were brought to the states and, eventually, many entered the world of the show ring. Until the American Working Terrier Association developed the first artificial trials for working terriers in 1971, the instincts of the Norfolk were not exercised, and many owners were unaware of this important part of the breed's history. At the second AWTA trial in 1971, history was made when Anne Winston's CH Mt. Paul Nanfan became the first drop ear to earn a Certificate of Gameness. The first Norfolk to earn a Working Certificate, a field (hunting) award, was Branchwood Autumn Color owned by R.L. Galloway in 1979.

By the time the American Kennel Club had its hunt test debut in 1994, enthusiasm was steadily building for this performance sport, and the fear of losing the instincts of this game little breed began to carry more value with some Norfolk breeders and owners. In 1996, Robin Ormiston's CH Chidley Erik The Red earned the status of Junior Earthdog, the first Norfolk to earn an AKC Earthdog title and in 1998, CH Tylwyth's Sinful Night, owned by Robert and Henrietta Lachman, became the first Norfolk to earn the Master Earthdog title. These dogs and their owners opened the door to a whole new world of meaningful competition...a competition where Norfolks had to use brains and innate talents that had gone too long buried in obscurity.

Thanks to the enthusiasm of the die-hard Norfolk competitors, canine and human alike, the Norfolk Terrier has indeed become a tried and true earthdog. With the number of entries on the rise, the Norfolk will retain their old hunting instincts and will, hopefully, with careful breeding practices, keep the old hunting lines strong in the generations to follow. Remember from whence they came.

*\*\*\*Please take note that, although these dogs get "down and dirty", the vast majority have also earned the status of breed Champion. How best to honor this breed of little "demons" when form follows function.*

**NORFOLKS GET THE JOB DONE...  
FROM CHAMPION TO MASTER EARTHDOG AND BEYOND**

*The Norfolks above define the best of both breed ring and field performance Norfolks.*

*Ten are breed Champions and ALL are Master Earthdogs!*

**GO- TO- GROUND...WHAT NORFOLKS  
INSTINCTIVELY DO BEST**

# 2008 Earthdog Awards

The Norfolk Terrier Club presented awards at the first annual club dinner in October, 2009, in Pennsylvania. The awards were for conformation and performance competitions for our club members.

Robert Lachman was able to acquire new medallions and lapel pins made to reflect our new club. The medallions and lapel pins were given to those club members competing in Conformation (52), Agility (9), Obedience (2), Rally (4), Earthdog (14) and Tracking (1). I want to send my congratulations to all those recipients and hope there will be more given out next year.

Respectfully submitted,  
Betsey Bliss

## **Pinchbeck Trophy (for Master Earthdog)**

CH Avalon's Captive Charisma NA OAJME—Lori Pelletier

## **OBEDIENCE: PAST AND PRESENT**

**By Mary Fine**

Once upon a time, back in the mid-'70's, there was a woman who showed her Corgis in obedience trials. She had been thinking of adding a second breed, but so far, as Goldilocks famously said, nothing seemed "just right". One day in July, she went to the Farmington Kennel Club show and, stopping to watch the Utility ring, saw a very small brown dog racing over the jumps with a "bow-wow" each time she leaped. That dog was Wendover Talent, soon to become the third Norfolk (then drop-eared Norwich) Utility Dog. Her owner was the late Nancy Parker of Rye, New York, who subsequently finished two more U.D. Norfolks, her first having been Triscuit's Tuffet in 1968. Talley was my inspiration because, indeed, this seemed "just right".

Eventually, after much searching and with the help of the late Anne Winston, then Club president, I acquired New Garden Eadith (Kelly), who became the breed's first Ch./U.D. and the first to hold a Canadian U.D. title. At that same time, the late Anne (Pam) Riker was very active training and showing "prick-eared Norwich" in both obedience and tracking. Pam only took one dog (Samantha) to the U.D. title, preferring to concentrate on tracking.

Back in those days, few Norfolk fanciers realized that an obedience dog could be campaigned for positions in national rankings similar to those for breed dogs. Many of the training methods of those early days were not suited to our breed, which probably discouraged some people from trying obedience. Some of us, however, paid little attention to how we were "supposed" to train and so had more success. Norfolks, in my opinion, need to be shown that obedience is fun. In the interests of full disclosure, I must mention that I personally have neither the patience nor the inclination to try for the elusive perfect 200 score. But, as I have told people so very often over the years, there are other goals, many more today than ever before. This means more opportunities to take our Norfolks out and compete. For those who strive for high scores, there is the Obedience Trial Championship (OTCH), to date held by one Norwich, but no Norfolks. For the dogs who may not score high, but will perform anywhere and under any conditions, there is the "consistency title", the Utility Dog Excellent (UDX). The first, and so far only, Norfolk to finish this title was my Tylwyth Just Felicity UDX2, Can. UD. Subsequently, three Norwich, but no other Norfolks, have achieved this title. There are even newer titles – Obedience Master, for instance, about which I confess I know very little. No Norfolk has as yet aspired to these heights.

Amazingly, after all these years, there have still been only twelve U.D. Norfolks, owned and trained by five individuals. And here I am still haranguing everyone: take your Norfolks out in obedience! Don't be afraid to compete with the Goldens and the Border Collies but instead set your own goals and HAVE FUN!!

# Canine Weight Pulling

By Peggy Metcalf  
Flurries Norfolk Terriers

Any dog, purebred or mixed; any size, from Yorkshire Terrier to Great Dane, can have fun weight pulling. All one needs is a dog who likes to work, a well-fitting harness, and some real tasty treats. Why weight pulling for Norfolk Terriers? Why not? Terriers like to have a job. They enjoy working and work keeps them out of trouble!

The history of our breed in weight pulling is brief. In 2003, Arista and Loriece Newt on-Moore (NTC members from WA) gave their Norfolk Terrier a chance to try weight pulling,

and CH Landmark Whistling Dixie (Newt on) became the first Norfolk to earn a weight pulling title awarded through the United Kennel Club. Newt on earned his title by pulling 630 pounds on rails. This accomplishment encouraged me to give it a try, and in March of 2009, Flurries Bayside Beacon earned her International Weight Pull Association Working Dog title with four successful pulls on wheels.

**Beacon making her final pull of 190 pounds on wheels.**

There are three types of pulls: snow, rails and wheels. Each has its own rules and regulations, but the idea is the same: pull the specific distance in the allotted time. Dogs are entered in classes based upon their weight. Scores are based on the percentage of weight pulled to the dog's body weight. Checkout the IWPA website at [www.iwpa.net](http://www.iwpa.net), or the UKC at [www.ukcdogs.com](http://www.ukcdogs.com) for more information.

A weight pull is quite an eye-opening event.

I suggest everyone should try to attend a pull just for the fun of it. It is another world in one way, but the love of dogs is the same. The competitors are the most

helpful lot you'll ever find and they give tremendous support to everyone, no matter what the breed of dog. The judges adhere to strict rules regarding the treatment of the pulling dogs and safety is a prime concern.

If your Norfolk likes to pull you down the road at the end of the leash, you may have a good prospect for weight pulling! I encourage everyone to try this exciting sport with your Norfolks.

**H**eight at the withers is 9 to 10 inches at maturity. Bitchestend to be smaller than dogs. Length of back fram point of withers to base of tail should be slightly longer than height at the withers.

*Illustrated Standard, 2009*

## MONTGOMERY COUNTY KENNEL CLUB—2008

By: Beth Sweigart

First, I would like to thank the members and directors of the NNTC for inviting me to judge at the last Norwich and Norfolk Terrier Club Specialty. While our two breeds will forever be joined emotionally, I have always felt that each deserves to have its own club with all the rights and privileges that entails. Now each breed will stand on its own.

Judging the breed most dear to my heart made anticipation nerve-wracking. It was a welcome surprise to judge so many Norfolks with so few bad mouths, long a problem in our breed. Soundness, also a concern over the years, seems to be improving. Our little dogs are becoming real show dogs with very few requiring their handlers to kneel and 'top & tail' them. Quite a change from the 70's when quite a few Norfolk were known to crawl around the ring! So my overall impression is that our breed is headed in the right direction.

**6-9 puppy Dogs:** First to Jack Simm's puppy, Flatford Head Up, bred & co-owned by R. Powell. This is a well-made, substantial dog, a bit short of coat, but with a lovely head and eye. He is a hard-coated, dark black and tan. He moved well with a level topline. Second to H. Cole, D. Hall and K. Slum with BigWig Mack the Knife, a showy red pup who carried himself well. He was not quite as good in head and eye as my number one pick.

**Bred-By Dogs:** Two very nice dogs were presented who both showed well. Fist and Winner's Dog to D. Pritchard's Glenelg Podge Low, a very typey red dog shown in full coat. He had pleasing head and eye, good neck into shoulders, carrying a hard topline and good tail set. He carried himself well. Second to B. Bliss's Shear Bliss What's on Tap, not quite as well made as my number one pick in neck and shoulder, and not quite as confident.

**Open Dogs:** first and Reserve Winner's Dog to Chantilly Cawdor of Argyle, owned by D. Pritchard and the Mathews. This is a nice red dog with a pleasing head. He could be better through the neck and shoulder. Second went to E. Wright's Kilwinning Andy Hardy, a workman-like dog with a great hard coat. His expression was harder than I would like.

**6-9 Puppy Bitch:** First, Winner's Bitch and Best of Winner's to Ann Dum's Arroyo's Punkin Seed. I fell for her on her first step. A lovely young bitch with good head and expression, correct ear placement, nice compact body with strong quarters and a good tail set. She carried herself with great confidence and owned the ring. Second to Miller and Kipp's Maxwell's Amber, another lovely youngster showing more length of back than I like and not as pleasing in head and expression. Third went to L. Federici's rugby's Mack's Not Just a Lark. She was not quite so well made as the first and second placers but none-the-less a promising pup.

9-12 Puppy Bitch: First to Miller & Kipp's Maxwell's Lucy Brown. She is a typey red bitch who showed well and has a good coat. I would like a better muzzle to back-stop proportions. Second went to Miller's Maxwell's Peppermint Patty, not quite as well-proportioned as her sister.

12-18 Months Puppy Bitch: First went to Lori Pelletier's and Joan Eckert's Abbedale's Joint Venture with Avalon. She has a good head and expression, good legs and feet and carried herself well on the go-around. Second was Palmer and Gabrielli's Domby Maylie Rose. She had a good expression and carried herself well. She was a little stuffy through her neck and shoulder. Third went to Gabrielli and Laterner's Domby Susan Nipper II at Tull. She is a compact bitch with good expression, though her coat was a bit blown.

Bred-By Bitch: First to Miller, Kipp and Leone's Maxwell's Almond Joy. She is a nicely-made bitch with good coat and color. She moved well on the go-around. Second went to the Dinger's Kashmir's Tempest Triumphs. She was not as good on the go-around as my first choice and could have a stronger topline, but overall, a quality bitch.

Open Bitch: First and Reserve Winner's Bitch to Linda Dowdle's Dralion's Spirit of the Dance. She is a nicely made, compact bitch with good coat and color. She has nice angulation. I would like a better tail set.

Veterans: what a lovely class of happy ladies. First to Carol Falk's Ben Kelev's Chance of Rain. Though short of coat, this bitch was in fantastic physical condition. Her condition and her joy at being in the ring carried the day for her.

My class of specials entered and I was delighted to see so many well-presented Norfolks who were so clearly happy to be in the ring. My final choice was the Dum's Ch. Arroyo's Tater Tot. He is a lovely, compact dog with correct head and expression, a good neck and shoulders, a level topline and good quarters and tail set. Best Opposite Sex went to a bitch I have always liked, Miller & Kipp's Maxwell's Jade. She is a very typey bitch. The length of back I feel is correct. She has a great expression though I could have a little stronger muzzle. On this day she did not move as well as in the past.

Again, thanks to the NNTC for inviting me to this last joint venture. I hope that the camaraderie of our two breeds will continue well into the future. With all of the lovely dogs that came out for this weekend I think it is a shame that more Norfolks are not exhibited through the year so more people can come to know and appreciate our wonderful little breed.

Thanks again!

## AKC/EUKANUBA 2008

By: Barbara Miller

The AKC/Eukanuba National Championship dog show just celebrated its eighth year. This year the show topped 2,500 purebred dogs from 158 breeds. This show is held in conjunction with the AKC Agility Invitational and the National Obedience Invitational making for a well rounded event. This is the second year the event has offered the Eukanuba World Challenge, having invited 52 countries to show off their invitation-only top canines. The Bred-By-Exhibitor competition is a fixture enjoyed by all as the winners from each breed compete in their respective group. Prize money galore is offered for almost every win totaling \$225,000. I can attest to the fact that the Breeder of the Year award is one that is treasured. Each Group is represented by one breeder, and from those individuals one person will be selected to be the Breeder of the Year. Proudly, I represented the Terrier Group as the first recipient of this award in 2002. Again in 2007, I was selected to represent the Terrier Group, and much to my amazement, went on to take the top spot as Breeder of the Year. The only thing I can say is, "Hurray for Norfolks." One of the outstanding events for the two day show is the area set aside for Meet the Breeds. This is a way for the public to see what each breed is about. These past two years Pam and Jeff Seifert have done a bang-up job, incorporating both breeds in one booth. She has a knack for getting people to help at the booth with trimming, talking about the breed, and so much more. Could it be those chocolate chip cookies that husband Jeff bakes actually pull in the worker-bees, or is it Pam's charm? Whatever it is, the booth has been great.

This year's show, held December 13<sup>th</sup> and 14<sup>th</sup>, 2008, at the Long Beach Convention Center proved to be better than ever. The entry at this show is by invitation to champions. Ms Linda More had an entry of eleven, with two absent. Ch. Max-Well's Viper, sired by Ch. Max-Well's Cyclone, out of the bitch Ch. Max-Well's Venus, was selected Best of Opposite and Best Bred-By. Susan Kipp and Barbara Miller are the owners/ breeders and Susan handled Viper to this win. Young Devon Kipp went in the ring for the win, and win she did with Ch. Max-Well's Jade. A big smile crossed her face as she accepted the Best of Breed win. Jade is sired by Ch. Max-Well's Comet and her dam is Ch. Max-Well's Real Gem. The Montgomery breed winner, Ch. Arroyo's Tater Tot, was awarded an Award of Excellence by Ms. More on this day. He is owned by the Dums, Randy and Michelle Welcher, and bred by Ed and Ann Dum. Ch. Max-Well's Candy Cane also took home an Award of Excellence. She's owned by Kathy Kopack and Barbara Miller and bred by Miller and Susan Kipp. Competing in the Best Bred-By-Exhibitor Terrier Group, Susan Kipp and Viper went on to take the top spot under Argentinean judge, Enrique Filippini. Saturday night was a thrill for sixteen-year-old Dylan Kipp, as she went Best Junior handler with her Doberman. Dylan is a junior NTC club member who often can be seen, along with her sister, Devon, exhibiting the Norfolk. As we are a new club, we must encourage the juniors because they are the future.

It should be noted a number of NTC board members met twice while in Long Beach to review, make suggestions, add and delete items to our new Constitution and By Laws. The NTC owes a big thank you to club member Dr. Gerald Mager for his enormous help on this huge project. Gerry is a retired Dean at Amherst College whose area of expertise is the Constitution. On to next year!

## MONTGOMERY COUNTY KENNEL CLUB—2009

**By: Barbara Miller**

There are certain months of the year we know exactly what is going to happen: our birthday, Thanksgiving, Christmas, New Year's Eve and, most importantly, the first weekend in October referred to as Montgomery. Montgomery County Kennel Club sets the tone for the preceding shows, Hatboro and Devon. Driving from Long Island to Pennsylvania with fellow Norfolk owner, Kathy Kopack, I wondered, "Where have all the colors gone?" We haven't seen a color change of leaves in years; every tree still held its green foliage. Certainly those of us wise enough to try and second guess the weather prepared for it all. Each day the weather cooperated with Montgomery itself being superb.

The Holiday Inn, located in Ft. Washington, was the Norfolk Terrier Club's host hotel as it had been for years prior under the banner of the Norwich and Norfolk Terrier Club. This year was an entirely new experience for us as we stood alone, finally, as the Norfolk Terrier Club. The Norwich and Norfolk Terrier Club ceased to exist as of December 31, 2008. We now each stand on our own, creating new policy for each of our clubs. The Norfolk Terrier Club board met late Wednesday afternoon with discussions pertaining only to new business as anything "old" was handled and settled between becoming a new club January 1, 2009, and September 30, 2009, the day of our meeting. To facilitate moving along, we had dinner while we chatted about club matters. It must be mentioned that, as president, I can attest to the fact that this board was incredible to work with. Every member pitched in offering thoughts and ideas that we were able to incorporate into policy.

Thursday saw us up bright and early as Norfolk judging began in Mareth Kipp's ring promptly at 8:30 a.m. Mrs. Kipp, the mother-in-law of Susan, excluded all Max-Well bred and owned Norfolk from exhibition on the day. The entry totaled thirty-seven with five absentees. Mrs. Kipp awarded the five-point-major for Winners Dog and ultimately the Best of Winners ribbon to Aldwywn Sir Coventry, bred by Linda Meyers and co-owned with Judith Seltrecht. Larry Cornelius was the handler at the end of the lead and he did a wonderful job of steering this young dog into these winning spots. "Coventry" is sired by Ch. Copperplate Lord Byron, who in turn was sired by "Duke" (Ch. The Duke of Copperplate), the Best in Show winner at Montgomery a number of years ago. "Duke" was owned by Michael LaBrie and Marjorie and Jim McTernan. The McTernans bred "Coventry's" dam, Ch. Llywyde Lady of the Lake. Lori Pelletier bred and handled the Reserve Winner's Dog, Avalon's It Only Takes One, sired by Ch. Ben Kelev's Poker Chip out of Ch. Avalon's Sand Rat. Maria Manse is the co-owner. In bitches the Reserve went to Abbedale's Into The Mystic, piloted by Lori Pelletier and owned by Karen and Edward McCullough and Joan Eckert. Eckert and H. Thompson bred the bitch who is sired by Ch. Domby's Rinaldo at Abbedale and the dam is Abbedale's Diamond Image. It was an Abbedale day in bitches as handler Tony (sorry but I don't know his last name) led Abbedale's Miss Elsie to the Winners Bitch slot for a four-point-major. She is all Abbedale bred as her sire is Ch. Abbedale's Ben The Brit O'Domby out of Ch. Abbedale's Onyx. Joan Eckert is the breeder and co-owns the bitch with Dr. Stephen and Elaine Ginsberg. Tony Gabrielli and the late Wayne Palmer bred Ch. Domby's Susan Nipper 11 At Tull, JE; sired by Ch. Final Lea Big Ticket Item out of the bitch Ch. Domby's Dorothy Dibble. Gabrielli and Janet Latterner own this two year old bitch who went Best of Opposite. Ch. Venerie's Regatta Dr. Who, sired by Ch. Yarrow's Venerie Vocalist out of the dam Ch. Yarrow's Venerie Volcano, was Mrs. Kipp's choice for the Best of Breed ribbon. Dr. Who's owners are Pam Beale, Pam Duzik and Roxanne Sutton who are also listed as the breeders. Roxanne, Dr. Who's usual handler, was once again at the end of the lead. No Awards of Merit were given.

Thursday, early evening, the first annual Norfolk Terrier Club's membership meeting took place at the host hotel. Everyone in attendance was given a button adorned with the club logo. Janet Latterner is to be commended for the fabulous 'store' of Norfolk items she assembled for purchase. Janet, who really needed help with this assemblage, engaged two talented women, Nancy Wise and Kelly Sternberg . Nancy's husband, Larry Hottot, it might be noted, is our club's webmaster. Larry holds a high staff position with the U.S. Pentagon and is now serving in Iraq. The items at the 'store' were quite impressive: white on white embossed note cards with a Norfolk motif, lamp shades, cutting boards, various note cards, wooden cut-outs, etc., all there for the pickings at prices that didn't knock us out of our socks. We must remember to thank the members who helped Janet every inch of the way.

The meeting itself went well with an announcement of our first club ANNUAL and a request for member adverts. It was also mentioned we are returning, but as the Norfolk Terrier Club, to Rhode Island the first weekend in June. Health Chair, Carol Falk, announced a study that would be taking place under the auspices of Canine Health Foundation with reference to heart testing of our breed. As president, I presented each board member with a framed, newly-minted club medallion, name and position within the board inscribed, as a token of my appreciation to be fortunate enough to have this incredible board to work with. The Kathleen Eimil Lecture Series kicked off with noted Skye Terrier breeder Kirsi Saino, professor at the Institute of Biomedicine, University of Helsinki, as our guest speaker. The feedback on her lecture from those assembled was "wonderful and informative."

Mary Jane Carberry, in years back a terrier handler, followed by a stint at MBF and now an AKC judge, officiated at the second Hatboro on Friday. The Hatboro show is held at the Middletown Grange Fair Grounds in Wrightstown. Norfolk and our cousins the Norwich are fortunate to have had the same ring assignments for years, inside one of the 'barn' buildings. Forty-nine Norfolk were entered with six absent. Correy Krickeberg handled Bigwig's Most Happy Fella for breeders/owners Deane Hall, Ken Slump and Bradford Bates to Reserve Winner's Dog. This handsome fellow is sired by Ch. Copperplate Lord Byron out of the bitch Ch. Bigwig's Nutmeg. As a repeat of the day prior, Ms Carberry selected the Larry Cornelius handled dog, Aldwywn Sir Coventry, the Winners Dog and Best of Winners ribbons for a four-point-major. It should be noted both the Winner and Reserve dogs are sired by Lord Byron. In bitches, the Reserve was awarded to the eight-month-old, Chantilly Lady Liza, handled by Fritz Rumpf, one of the breeders/owners and co-owned with Jim and Sue Lawrence. The English import Ch. Bricken Country Pursuit sired this young bitch and her dam is Chantilly's Amanda. Judi Hartell was at the end of the lead of breeders/owners Debbie Pritchard's and Nancy Wise's bitch, Glenelg Tiger Tiger Burning Bright for the five-point-major and the Winners Bitch ribbon. Ch. Kinsridge Free N' Easy, the English import, sired the bitch and the dam is Glenelg Katie Did It. Ch. Max-Well's Violet, sired by another British import from the Kinsridge kennel, Ch. K. Cruise Control out of the dam Ch. Max-Well's Venus, bred/owned by Barbara Miller and Susie Kipp went Best of Opposite. The dam, Venus, was Best of Breed at Montgomery three years in-a-row. She retired from the ring with twenty-two Best in Shows. As the day prior, Ch. Venerie's Regatta Dr. Who went Best of Breed, as always handled by Roxanne Sutton. The Awards of Merit happened so quickly that I hope I have it correct: Ch. Max-Well's Rainbow and Ch. Arroyo's Tater Tot.

Friday night saw seventy-seven Norfolk Terrier Club members congregate at the well-known Blue Bell Inn for a superlative dinner. Henrietta Lachman, as the club's Hospitality chair, and her team are to be congratulated for amazing dinner arrangements. She enlisted the talent of Gloria Hannock who graciously donated the table center pieces. Marion Hovet took charge of the silent auction, which attracted many of us to bid on some fabulous Norfolk items. The club raffle, a 32 inch television, was won by a non member but none-the-less took in a lot of money for our young club. Henrietta placed in front of each table setting a beautifully arranged goody bag, green with the club logo and filled with Norfolk paraphernalia. Even our name tags were specially made by Henrietta.

## Show Results

Speaking of our club logo, it must be noted that Heidi Martin drew the Norfolk illustrations for our Illustrated Standard. As a club, we've utilized those drawings at every turn in the road. We thank Heidi for her conscientious and unwavering attention in helping to see that our Illustrated Standard was completed. This being our first Awards night, it was a pleasure seeing the Performance Chair, Sassie Joiris, hand out the newly designed lapel pin to each of the recipients. Club medallions for those earning their championship were placed in little velvet bags, placed in another bag, and given to the winners at the dinner. Andrew Kramer calculates the winners and Betsy Bliss sees to it the medallions are received. All winners' names will be printed in our club's ANNUAL. Robert Lachman cannot be left out of the equation as he had the task of finding the manufacturer to produce our new medallions and lapel pins. It was a tedious job but Robert stuck with it and the club owes him a round of applause.

Six Awards, most unexpected, were awarded to members who went overboard in helping to bring the club to the level it has achieved in such a short period of time. It was announced at the dinner that our editor of the on-line Norfolk Notes and a recipient of a club award, Julie Gleeson, has had her name submitted by the board to the Dog Writers Association for an award. The Lachmans, Lorrie Kinney, our printer and "designer" of layouts, Sue Lawrence, our Trophy Chair, Gerald Mager, who worked on revamping our Constitution and By Laws and Larry Hottot, who received the AKC medallion from our new club were all outstanding in their efforts seeing to it that all phases of this club were completed on schedule. It was a wonderful party and to all who helped to make it a success, we all thank you.

Saturday we all headed to Ludwig's Corner and the Devon Dog Show. Mr. Edd Biven had an entry of forty-three with ten absent. Corey Krickeberg, as the day before, piloted Bigwig's Most Happy Fella, to the Reserve Winners Dog slot. Breeders/owners Michael Walsh, Carole Walsh, Toni Harrold and Fritz Rumpf were thrilled to accept the Winners Dog ribbon and a four point major for their Bred-By-Exhibitor entry, Rightly So Wallee World. He's sired by Rightly So Weather Vane, out of the bitch, Ch. Me O M Tightly So Hot Flash. While still a teenager, Derek Glas went to work for the Kipps, whereby he fell in love with Norfolk terriers. He has yet to miss a Montgomery weekend, even though he's in photography school in California. Barbara Miller and Susan Kipp bred Max-Well's Valley Girl, and own this one-year-old, along with Derek Glas. Derek couldn't have been more excited than when Mr. Biven awarded Valley Girl the Winner's Bitch/Best of Winners ribbons for a four-point-major. She's sired by Ch. Max-Well's Viper, the top dog in the breed, a multi-Best in Show winner, a terrier group placing Norfolk at Westminster and, among his various accomplishments, a producer of champions. Valley's dam is Ch. Max-Well's Solar Flair. The Reserve Winner's Bitch ribbon was awarded to breeders/owners Linda and Peter Dowdle's Dralion's Lucy in the Sky; sired by Abbedale's Leopold, out of the bitch Dralion Dynamic Dreamer. The Best of Opposite ribbon went to Ch. Venerie's Regatta Dr. Who, the breed winner for the previous past two days. Mr. Biven handed the Best of Breed ribbon to Jorge Olivera, handler of the thirteen month old bitch Ch. Max-Well's Rainbow. Rainbow is sired by Ch. Max-Well's Mr. Cruise out of the dam Ch. Max-Well's Raindance and was bred and owned by Barbara Miller and Susie Kipp. In August of this year, the breeders decided to gift Kathy Kopack with a co-ownership of Rainbow; a gift with which she surely must be pleased.

Sunday was the day itself...Montgomery County Kennel Club held at the Montgomery County Community College in Blue Bell, PA. If a day could be hand-picked, then this was it. The weather was perfect for man and terrier. The hospitality tents for both the Norfolk Terrier Club and the Norwich Terrier Club of America were set side-by-side through the efforts of Jean Kessler (NTCA) and Robert and Henrietta Lachman (NTC).

Each club's tables were dressed with new cloths displaying an assortment of goodies both bought and baked. Our new banner hung proudly above the table, announcing our club. The hospitality tents were set up near the Overseas tent, where our own Marjorie McTernan, Norfolk delegate to the AKC, set up house. In due time she was joined by another Norfolk club member, Gaynor Green. Both ladies are long time members of Montgomery. Foreign visitors anxious to see the new Norfolk Terrier Club at work included Helene Gisin from Switzerland and one time board member of the NNTC, Dorothy Dorkins and her daughter Gina from England and Liz Hindley from Australia.

The Norfolk Terrier Club ring was decorated with style and grace: each of the far corners housed colorful mums, wreaths depicting our breed hung from the fencing of the holding ring and, of course, our new club tablecloths graced the trophy tables beautifully.

New trophies were added to the list such as the Norfolk Terrier Bowl for Best of Opposite Sex, offered in memory of "Storm", and the Max-Well Bowl for Best of Winners, offered by Barbara Miller and Susan Kipp. Both of these joined the Best Bred-By-Exhibitor trophy, now in its third year of contention, offered by Barbara Miller and Marjorie and Jim McTernan in memory of M. Joy Taylor. Sue Lawrence, the club's trophy chair, did a fantastic job of selecting beautiful items for our Specialty. We cannot thank Grace Scott enough as it is she who houses the trophies and helped the Lachmans to set up the ring. It will be up to Grace to see that the club trophies get properly engraved. Thanks must certainly go to Carol Walsh for utilizing Heidi Martin's illustrations of our Norfolk in producing beautiful new tablecloths. There certainly was excitement in the air as exhibitors and spectators set their chairs up around the ring. The sun was high in the sky shinning down on us as we proudly began the Norfolk Terrier Club's first National Specialty.

Our stewards are now fixtures in the Norfolk ring, having had the assignment for many years and, hopefully, many more to come: Susan Sprung whose eye for a good Norfolk never ceases to amaze me, and John Mandeville ,who has been in the breed for over thirty years. Both are well-known in the fancy and we are fortunate to have them, as they know how to keep a ring running smoothly. Scotty breeder and exhibitor, Mrs. Kathi Brown, had the honor of judging sixteen young Norfolks in Sweepstakes. Mrs. Brown, who has a sense of humor second to none, took to her assignment quite seriously but still managed to make each exhibitor welcome in her ring. The rules for entering Puppy Sweeps are quite specific:they must be shown by the owner, breeder or an immediate family member and may not be a champion of record. Sitting ringside, my impression of these youngsters was that "the breed is in pretty good shape." Best of Opposite Sex was awarded to the lone male entry, a black and tan, Owl Hollow's the Bull and the Barrister, owners/breeders Deborah Sutton and Lori Watson. Ch. Owl Hollow Bodacious Ride and Bilbrough It's the Law@ Owl Hollow Farm are the sire and dam in that order. The ring was a bit muddy, but a call for straw by the judge in the early morning allowed for the exhibits to avoid pitfalls. Ch. Max-Well's Viper, sire, and Ch. Max-Well's Solar Flare, dam, produced the Best in Sweepstakes winner, Max-Well's Vanessa, owned and bred by Barbara Miller and Susan Kipp. Mrs. Brown, completing her assignment, went on to judge the Veterans Sweeps and the singleton entry, Ch. Copperplate Lord Byron, sired by Ch. Duke of Copperplate out of the bitch Ch. Copperplate Audrey. Marjorie McTernan, Heidi Cole and Heidi's daughter, Connery, own Byron, whose pedigree on both sides goes back to Joy Taylor's Nanfan kennel. Connery did a splendid bit of handling to the rousing applause received from the spectators for Byron.

## Show Results

Ms. Linda More, selected by the club to judge the regular classes, has been in the fancy for many years, as a handler and as a staff member of the AKC. Sixty-two were entered with eleven absent. Bigwig's Mack the Knife, breeders/owners Ken Slump, Deane Hall and Heidi Cole were thrilled as handler Correy Krickeberg took this fifteen month old dog into the Winners slot for a five-point-major. He's sired by the veteran dog Ch. Copperplate Lord Byron out of the bitch Ch. Bigwig's Nutmeg. Michael Walsh, Carole Walsh, and Toni Harrold, breeders/owners, watched as co-owner Fritz Rumpf accepted the Reserve Winner's Dog ribbon for the Bred-By-Exhibitor, Rightly So Wallee World, the day prior having earned major points. The four-point-major in bitches was awarded to Barbara Miller's and Susan Kipp's fourteen-month-old, Max-Well's Cats Cradle, sired by Ch. Max-Well's Viper out of Ch. Max-Well's Miss Kitty. "Cradle" went on to earn the Best of Winners ribbon as well. Reserve Winners Bitch was won by Abbedale's Miss Elsie who, at Thursday's Hatboro, won the points. Jorge Olivera was at the end of the lead of Ch. Max-Well's Rainbow for owners Barbara Miller, Susan Kipp and Kathy Kopack as he accepted the Best of Opposite ribbon. Rainbow was having a great first specialty weekend as the day before she won the breed. For the third time on this weekend, Ch. Venerie's Regatta Dr. Who took home the big blue ribbon, Best of Breed. In the big ring under judge Peter Green, Roxanne Sutton, Dr. Who's handler, took a lap of honor. Linda More gave four Awards of Merit to the following: Ch. Starmin EZ Link to Domby, Ch. Arroyo's Tater Tot, Ch. Copperplate Lord Byron and Ch. Max-Well's Violet. The stud dog class was won by Ch. Max-Well's Viper, who was exhibited only in this class. As president of the Norfolk Terrier Club I'd like to see us expand our Parade of Champions, as on this day we only had two entries.

I'd like to thank both Kathi Brown and Linda More for making our first Specialty at Montgomery a huge success. To each of the members who gave of their time and talent seeing to it this was a weekend to remember, I can't thank you enough. As a club, we've accomplished so much in such a short period of time, as all of it led up to a perfect Montgomery. We now move on to Meet the Breeds at the Javits Center in New York City. Our backdrop for the Norfolk Terrier Club booth is a photo taken by me thirty years ago of an English village, thatched roofs and all, enhanced by member Robert Lachman and completely hand painted in China. We hope to see you there.

As for Montgomery...may you stand alone forever as you set the standard for every American Kennel Club show throughout our country. Congrats to the Montgomery members who once again pulled off a magnificent show.

## The Norfolk Terrier Club Specialty Montgomery County Kennel Club, Oct. 4, 2009 By Linda More

It was a special Honor to be asked to judge the first national specialty for the Norfolk Terrier Club. The weather did not let me down, and neither did the dogs.

A number of years ago, the late Anne Rogers Clark told me, "Always remember that Norfolks (and Norwich) should still be useful rat-getting dogs, strong and able, even if they no longer hunt." Her advice was in my mind as I evaluated the entry.

First a few general observations. I was quite pleased with the overall quality presented. Temperaments in general were sound, with merry, waggy, little dogs enjoying themselves, with typical Norfolk zest and charm. Coat quality in the majority was good, even though a few were "not yet fully dressed," so to speak-but there was enough to evaluate the texture. Most of the bites were good, though it would be nice to see more with large teeth. I hope that breeders will strive to keep small, nicely set ears, which add to the sparkling Norfolk expression; some of the dogs had rather long ears, and it is a functional consideration-whether or not they hunt and put their ears in danger-as well as an esthetic one. Lastly, I hope breeders will continue to work to produce and keep good feet.

The Winner's Dog was a strong, energetic mover with a nice broad rear, good coat, pleasing head and expression. My choice for Winner's Bitch/Best of Winner's was a very shapely and pretty-headed girl; I loved her proportion and outline and her extension in motion. Best of Breed to a solid-bodied dog of very attractive outline and proportion, using it all in motion and presenting a handsome head and lively expression. The Best of Opposite bitch exhibited excellent smooth movement and strong topline, as well as a pleasing head and sparkling expression.

In my opinion, the Stud Dog class also deserves mention, as it brought forth two dogs, both extremely nice in their own right, and accompanied by offspring that clearly showed that each dog is dominant for many good qualities, and thus a very valuable producer. I don't recall judging a Stud Dog class in any other breed, in which each dog's get were so consistent in type and quality.

My sincere thanks to The Norfolk Terrier Club and all the exhibitors for a wonderful assignment.

## THE AKC/EUKANUBA WEEKEND

by Kathy Kopack

I arrived in Long Beach, California, a few days prior to the Eukanuba weekend to help prepare for Meet the Breeds. The Egg Nog Cluster, three shows held prior to Eukanuba, is the kick-off for the weekend. The Convention Center was beautifully decorated for the holidays and these shows. Magically, for the AKC/Eukanuba two-day event, the venue was transformed into a tropical setting, with palm trees and the pink and blue colors of Eukanuba. Whereas in years past, competition for this particular show was open to champions only; this being the AKC's 125<sup>th</sup> Anniversary, competition was open to the classes as well. There was an extensive foreign entry as well.

Norfolk Terrier Club member, under the Yarrow prefix, Beth Sweigart, was the judge for our breed. There was an entry of nine with four absent. Max-Well's Thunder Boom, bred by Barbara Miller and Susan Kipp, and owned by Miller and Kirsie and Milla Larjava, was the judge's selection for Winners Dog/Best of winners. His sire is Ch. Max-Well's Cool Water out of the bitch, Ch. Max-Well's Torrent. Max-Well's Red Cherry was chosen as the Winners Bitch; owned and bred by Miller and Susan Kipp and sired by Ch. Max-Well's Junior Mint, out of Ch. Max-Well's Red Velvet. Ch. Arroyo's Punkin Seed, bred and owned by Ann and Ed Dums, was the judge's choice for an Award of Excellence, as well as Best Bred-By-Exhibitor. She's sired by Ch. Arroyo's Tater Tot and the dam is Ch. Arroyo's Devil or Angel. Tater Tot took home the Best of Opposite ribbon. He's bred and owned by the Dums and co-owned with Randy and Michelle Welcher, and sired by Ch. Wisdom's Gate Let Freedom Ring out of the bitch, Ch. Arroyo's Skittles. Ms Sweigart awarded the blue ribbon for Best of Breed to Ch. Max-Well's Violet, sired by the import Ch. Kinsridge Cruise Control, and the dam is Ch. Max-Well's Venus, a multiple Best in Show winner. Violet was bred and owned by Miller and Kipp.

Meet the Breeds was held in an area apart from the ring competition. Pam and Jeff Seifert, Californians and Norwich breeders, did a splendid job of constructing an English cottage, as discussed the previous year with Barbara Miller. Even though the Norwich and Norfolk Terrier Club became two as of January 1, 2009, it was decided to keep the booth, both Norfolk and Norwich, under one roof. The Seiferts outdid themselves with tubs of real flowers and a picket fence to complete the English "look." Many visitors stopped by our booth asking questions about the breeds. Jeff Katz, the Dums, the Welchers and their daughter were on hand with the Seiferts and me to answer those questions, pass out information and allow the visitors to see and pet the dogs. It was a wonderful event, especially since our booth took home the second place ribbon.

This show will be held at the same venue next year and then move on to Florida in the year 2011.

**JOSEPHINE SPENCER-ELIZABEHT SPYKMAN MEMORIAL TROPHY** Perpetual Trophy.

Sterling Silver Bowl in memory of Mrs. Josephine Spencer and Mrs. Elizabeth Spykman, and awarded to the Best of Breed winner at the National Specialty only. **Not to be won outright** as this is a perpetual trophy offered prior to 1957. ( In 1957, AKC did away with perpetual trophies) This trophy has been in competition since 1950, and should be appraised. Breed Winner will receive a 10" Crystal Diamond Sculpture, engraved & etched.

**MT. PAUL TROPHY** awarded for Best of Breed in memory of Mrs. John Winston at National Specialty only (no physical trophy available ...decided to discontinue in 2010 because we will then have a Best in Match trophy under same name)

**MAX-WELL BOWL** Commemorative Trophy awarded to the Best of Winners at the National Specialty and Roving Specialty only. This is a large Sterling Silver bowl, partially engraved by the NNTC for BOW and retired in 1995 by Barbara Miller. It is offered in 2009 by Barbara Miller and Susan Kipp for BOW for the new Norfolk Terrier Club (formerly the Norwich & Norfolk Terrier Club). It is set on a block with plaques for engraving winner's name. **Never to be won outright**. The winner's name will be engraved on the plaque and the trophy will remain in the possession of the club, and displayed each year. This trophy should be appraised

**NORFOLK TERRIER CLUB BOWL** Commemorative trophy awarded to Best of Opposite Sex at the National Specialty & Roving Specialty only (we have never had a physical trophy for this award until now). **Never to be won outright**. This is an imported Italian Silver Plate Bowl on pedestal with a ring of blue enamel, mounted on a block. The winner's name will be engraved either on plaques or on the trophy. This trophy is offered in 'Memory of Storm' in 2009. The winner's name will be engraved on the plaque and the trophy will remain in the possession of the club and displayed each year. (value about \$600)

**The M. JOY TAYLOR BEST-BRED-BY-EXHIBITOR TROPHY** Commemorative Trophy awarded for Best-Bred-By-Exhibitor at the National Specialty only. This trophy is a Denis Springer Bronze Norfolk Head Study mounted on a block with plaques for winner's name. It will remain in the possession of the club and is **never to be won outright**. Offered by Barbara Miller in 2007, and in 2009 co-offered by Marjorie and Jim McTernan in memory of Mrs. Taylor (Nanfan Norfolk Terriers) through the Norfolk Terrier Club (formerly the Norwich & Norfolk Terrier Club) for competition at the Montgomery County Kennel Club Specialty Show only .(value \$2,500). Winner will receive a 14" SP Engraved Round Tray with Etched Breed.

## MATCH SHOW TROPHIES

**THE MAX-WELL TRAY** Awarded to the Breeder of the Best Norfolk Adult in Match. First awarded early 1980's, offered by Barbara Miller and Sue Bobley. This trophy is an oblong tray with a scrolled edge

**KING'S PREVENTION AHOY SALVER** Awarded to the Breeder of Best Puppy. Offered by Constance Larabee in the early 1980's This trophy is an International silver plate salver with a scrolled edge.

**CASTLE POINT CUP** Offered by Mrs. Mary Stevens Baird in the early 1980's for Best Norfolk Puppy in Match. This trophy is a classical urn on a round pedestal.

**THE BETHWAY TROPHY** Awarded to Best Adult in Match by Barbara Fournier in the early 1980's. This trophy is a three-sided plate, manufacturer Nambe.

**MT PAUL TROPHY** Best In Match offered by Mrs. John (Anne) Winston in the late 1970's after the breed became two (no physical trophy for this award) Trophy Chair Sue Lawrence directed by president Barbara Miller to purchase trophy for the Norfolk Terrier Club

---

## **CLUB TROPHIES** Given at the annual dinner.

None of these trophies are physical. Trophies are purchased for the winners each year. It is my opinion these trophies should be Mint Julep Cups engraved with winner's name and date.

**MAPLEHURST TROPHY** For Norfolk Bitch. Named in honor of Mrs. Katherine Thayer and offered for Best Bred-By-Exhibitor. Points may be acquired from puppy classes but after 12 months from Bred-By only (new AKC rule '08) This follows AKC rules.

**PARTREE TROPHY** For Norfolk Dog. Named in honor of Mrs. Josephine Spencer and offered for Best Bred-By-Exhibitor. Rules as stated above. This follows AKC rules.

**RIVER BEND TROPHY** Named in memory of Sylvia Warren, an early Norfolk breeder and obedience participant. Awarded to Highest Scoring Norfolk in Obedience via the following scoring points:

200	8pts
198-199	5.7pts
195-197	5.6pts
190-194	5.5pts
185-189	5.4pts
180-184	5.3pts
175-179	5.2pts
170-174	5.1pts

**VERSATILITY AWARD** Awarded to the Norfolk earning 20 points in a minimum of three conformation and performance categories (AKC accepted).

**TRACKING TROPHY** (AKC accepted) awarded to each Norfolk earning a tracking title (this replaces the Neversink Trophy).

## **Certificates awarded to the following at annual club dinner:**

Top Kennel  
Top Stud Dog  
Top Brood Bitch

## **Pending Club Awards:**

President's Award  
Officers and governors Award  
Members Appreciation Award

# Register of Merit

## Register of Merit

The Norfolk Terrier Club awards Registers of Merit (ROM) to those Norfolk who have proved themselves to be significant sires or dams. There are many variations on how ROMs are awarded across breed clubs. The Norfolk Terrier Club chose to have a single-level basis for the ROMs. In order to qualify, a Norfolk dog has to have sired at least 8 conformation champions. A Norfolk bitch has to have produced 5 conformation champions.

The calculation of the ROMs is a fairly straightforward process. The Norfolk Terrier Pedigree Database is exported to an Excel file. In that file are every Norfolk's name, title, sire, and dam. Using a statistical program, the names of the sires and dams achieving the requirement for ROM status are derived. While the initial process for producing the list of ROM recipients was lengthy, a process has been put into place where an updated list can be produced in under an hour.

**Andrew A. Kramer, Ph.D.**  
**Norfolk Terrier Club Breed Statistics Chair**  
*(Dr. Kramer breeds Norfolk Terriers and Cairn Terriers under the Mercator affix.  
By profession Dr. Kramer carries out bio-statistical research.)*
